

Statement of Additional Information

March 29, 2024

Convergence Long/Short Equity ETF (CLSE)

Listed on Cboe BZX Exchange, Inc.

This Statement of Additional Information (“SAI”) provides general information about the Convergence Long/Short Equity ETF (the “Fund”), a series of Trust for Professional Managers (the “Trust”). This SAI is not a prospectus and should be read in conjunction with the Fund’s current prospectus dated March 29, 2024 (the “Prospectus”), as supplemented and amended from time to time, which is incorporated herein by reference.

The financial statements of the Fund and the independent registered public accounting firm’s report appearing in the Fund’s [Annual Report to Shareholders](#) for the fiscal year ended November 30, 2023 are hereby incorporated by reference. To obtain a copy of the Prospectus and/or the Reports to Shareholders, free of charge, please write or call the Fund at the address or toll-free telephone number below, or visit the Fund’s website at www.investcip.com.

The Trust

The Trust is a Delaware statutory trust organized on May 29, 2001, and is registered with the Securities and Exchange Commission (“SEC”) as an open-end management investment company. The Fund is one series formed by the Trust. The Fund is a diversified series and has its own investment objective and policies. Shares of other series of the Trust are offered in separate prospectuses and SAIs. The Trust may register additional series and offer shares of a new fund or share class under the Trust at any time. The Fund is the successor to the Convergence Long/Short Equity Fund, a series of the Trust (the “Predecessor Fund”), as a result of the reorganization of the Predecessor Fund into the Fund on February 18, 2022. Effective June 18, 2019, the Predecessor Fund’s name changed from Convergence Core Plus Fund to Convergence Long/Short Equity Fund.

The Trust is authorized to issue an unlimited number of interests (or shares). Interests in the Fund (“Shares”) are represented by shares of beneficial interest each with a par value of \$0.001. Each share of the Trust has equal voting rights and liquidation rights, and is voted in the aggregate and not by the series or class of shares except in matters where a separate vote is required by the Investment Company Act of 1940, as amended (the “1940 Act”), or when the matters affect only the interests of a particular series or class of shares. When matters are submitted to shareholders for a vote, each shareholder is entitled to one vote for each full share owned and fractional votes for fractional shares owned. Shares of each series or class generally vote together, except when required under federal securities laws to vote separately on matters that only affect a particular class. The Trust does not normally hold annual meetings of shareholders. The Trust’s Board of Trustees (the “Board” or the “Board of Trustees”) shall promptly call and give notice of a meeting of shareholders for the purpose of voting upon removal of any trustee when requested to do so in writing by shareholders holding 10% or more of the Trust’s outstanding shares.

The Fund offers and issues Shares at its net asset value (“NAV”) only in aggregations of a specified number of Shares (each, a “Creation Unit”). The Fund generally offers and issues Shares in exchange for a basket of securities (“Deposit Securities”) together with the deposit of a specified cash payment (“Cash Component”). The Trust reserves the right to permit or require the substitution of a “cash in lieu” amount (“Deposit Cash”) to be added to the Cash Component to replace any Deposit Security. Shares are listed on the Cboe BZX Exchange, Inc. (the “Exchange”) and trade on the Exchange at market prices that may differ from the Shares’ NAV. Shares are also redeemable only in Creation Unit aggregations, primarily for a basket of Deposit Securities together with a Cash Component. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, Shares are not redeemable securities.

Each share of the Fund represents an equal proportionate interest in the assets and liabilities belonging to the Fund and is entitled to such distributions out of the income belonging to the Fund as are declared by the Board of Trustees. The Board of Trustees has the authority from time to time to divide or combine the shares of any series into a greater or lesser number of shares of that series so long as the proportionate beneficial interests in the assets belonging to that series and the rights of shares of any other series are in no way affected. Additionally, in case of any liquidation of a series, the shareholders of the series being liquidated are entitled to receive a distribution out of the assets, net of the liabilities, belonging to that series. Expenses attributable to any series or class are borne by that series or class. Any general expenses of the Trust not readily identifiable as belonging to a particular series or class are allocated by, or under the direction of, the Board of Trustees on the basis of relative net assets, the number of shareholders or another equitable method. No shareholder is liable to further calls or to assessment by the Trust without his or her express consent.

Shares may be issued in advance of receipt of Deposit Securities subject to various conditions, including a requirement to maintain on deposit with the Trust cash at least equal to a specified percentage of the value of the missing Deposit Securities, as set forth in the Participant Agreement (as defined below). The Trust may impose a transaction fee for each creation or redemption. In all cases, such fees will be limited in accordance with the requirements of the SEC applicable to management investment companies offering redeemable

securities. As in the case of other publicly traded securities, brokers' commissions on transactions in the secondary market will be based on negotiated commission rates at customary levels.

The assets of the Fund received for the issue or sale of its shares, and all income, earnings, profits and proceeds thereof, subject only to the rights of creditors, shall constitute the underlying assets of the Fund. In the event of the dissolution or liquidation of the Fund, the shareholders of the Fund are entitled to share pro rata in the net assets of the Fund available for distribution to shareholders.

Convergence Investment Partners, LLC (the "Adviser") serves as the investment adviser to the Fund.

Investment Policies, Strategies and Associated Risks

Investment Objective

The investment objective of the Fund is to seek long-term capital growth. The Fund's investment objective and principal investment strategies may be changed without the approval of the Fund's shareholders upon 60 days' written notice to shareholders. However, the Fund will not make any changes in its investment policy of investing at least 80% of net assets (plus borrowings for investment purposes) in long and short positions in equity securities of domestic companies without providing shareholders with at least 60 days' prior written notice of the change in its investment policy and changing the Fund's name.

Diversification Status

The Fund is diversified. Under applicable federal laws, to qualify as a diversified fund, the Fund, with respect to at least 75% of its total assets, may not invest more than 5% of its assets in any one issuer and may not hold more than 10% of the securities of one issuer. The remaining 25% of the Fund's total assets does not need to be "diversified" and may be invested in the securities of a single issuer, subject to other applicable laws. The diversification of the Fund's holdings is measured at the time the Fund purchases a security. However, if the Fund purchases a security and holds it for a period of time, the security may become a larger percentage of the Fund's total assets due to movements in the financial markets. If the market affects several securities held by the Fund, the Fund may have a greater percentage of its assets invested in securities of fewer issuers. Because the Fund is diversified, the Fund is less subject to the risk that its performance may be hurt disproportionately by the poor performance of relatively few securities.

Investment Strategies and Related Risks

There is no assurance that the Fund will achieve its investment objective. The following discussion supplements the description of the Fund's investment objective and principal investment strategies set forth in the Prospectus. Except for the fundamental investment restrictions listed below (see "Investment Restrictions"), the Fund's investment strategies and policies are not fundamental and may be changed by sole action of the Board of Trustees, without shareholder approval. While the Fund is permitted to hold securities and engage in various strategies as described hereafter, it is not obligated to do so.

Whenever an investment policy or investment restriction states a maximum percentage of the Fund's assets that may be invested in any security, or other asset, or sets forth a policy regarding quality standards, such standard or percentage limitation will be determined immediately after and as a result of the Fund's acquisition or sale of such security or other asset. Accordingly, except with respect to borrowing and illiquid investments, any subsequent change in values, net assets or other circumstances will not be considered when determining whether an investment complies with the Fund's investment policies and investment restrictions set forth herein or in the Prospectus. In addition, if a bankruptcy or other extraordinary event occurs concerning a particular investment by the Fund, the Fund may receive stock, real estate or other investments that the Fund would not, or could not, buy. If this happens, the Fund will sell such investments as soon as practicable while trying to maximize the return to its shareholders. Please note, however, that the guidance

referenced in the first two sentences of this paragraph does not apply to the Fund's limitation as to the borrowing or purchase, as the case may be, of illiquid investments or the Fund's borrowing of money.

General Market Risks

Global economies and financial markets are increasingly interconnected, which increases the probabilities that conditions in one country or region might adversely impact issues in a different country or region. In some cases, the stock prices of individual companies have been negatively impacted even though there may be little or no apparent degradation in the financial condition or prospects of that company. As a result of this volatility, many of the risks associated with an investment in the Fund may be increased. Continuing market problems may have adverse effects on the Fund.

Equity Securities

An equity security (such as a stock, partnership interest or other beneficial interest in an issuer) represents a proportionate share of the ownership of a company. Its value is based on the success of the company's business, any income paid to stockholders, the value of its assets and general market conditions. Common stocks and preferred stocks are examples of equity securities. Preferred stocks are equity securities that often pay dividends at a specific rate and have a preference over common stocks in dividend payments and liquidation of assets. Some preferred stocks may be convertible into common stock. Convertible securities are securities (such as debt securities or preferred stock) that may be converted into or exchanged for a specified amount of common stock of the same or different issuer within a particular period of time at a specified price or formula. Convertible securities are senior to common stock in an issuer's capital structure, but are subordinated to any senior debt securities. Consequently, the issuer's convertible securities may be viewed as having more risk than its senior debt securities, but less risk than its common stock.

The Fund invests in medium and large market capitalization companies as a principal investment strategy. The risks of investing in companies in general include business failure and reliance on erroneous reports. Small- and medium-size companies often have narrower markets for their goods and/or services and more limited managerial and financial resources than larger, more established companies. Furthermore, those companies often have limited product lines or services, markets, or financial resources, or are dependent on a small management group. In addition, because these securities are not well-known to the investing public, they do not have significant institutional ownership, and are followed by relatively few security analysts, there will normally be less publicly available information concerning these securities compared to what is available for the securities of larger companies. Adverse publicity and investor perceptions, whether or not based on fundamental analysis, can decrease the value and liquidity of securities held by the Fund. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio. The Fund may also invest in the securities of micro-size companies, which are subject to substantially the same risks as those of the securities of small-size companies.

Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-size companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

Common Stock. A common stock represents a proportionate share of the ownership of a company and its value is based on the success of the company's business, any income paid to stockholders, the value of its assets and general market conditions. In addition to the general risks set forth above, investments in common stocks are subject to the risk that in the event a company in which the Fund invests is liquidated, the holders of preferred stock and creditors of that company will be paid in full before any payments are made to the Fund as a holder of common stock. It is possible that all assets of that company will be exhausted before any payments are made to the Fund.

Preferred Stock. Preferred stocks are equity securities that often pay dividends at a specific rate and have a preference over common stocks in dividend payments and liquidation of assets. A preferred stock is a blend of the characteristics of a bond and common stock. It can offer the higher yield of a bond and has priority over common stock in equity ownership, but does not have the seniority of a bond and, unlike common stock, its participation in the issuer's growth may be limited. Although the dividend is set at a fixed annual rate, in some circumstances it can be changed or omitted by the issuer.

Convertible Securities. Convertible securities include fixed income securities that may be exchanged or converted into a predetermined number of shares of the issuer's underlying common stock or other equity security at the option of the holder during a specified period. Convertible securities may take the form of convertible preferred stock, convertible bonds or debentures, units consisting of "usable" bonds and warrants or a combination of the features of several of these securities. The investment characteristics of each convertible security vary widely, which allows convertible securities to be employed for a variety of investment strategies. The Fund will exchange or convert convertible securities into shares of underlying common stock when, in the opinion of the Adviser, the investment characteristics of the underlying common stock or other equity security will assist the Fund in achieving its investment objective. The Fund may also elect to hold or trade convertible securities. In selecting convertible securities, the Adviser evaluates the investment characteristics of the convertible security as a fixed income instrument, and the investment potential of the underlying equity security for capital appreciation. In evaluating these matters with respect to a particular convertible security, the Adviser considers numerous factors, including the economic and political outlook, the value of the security relative to other investment alternatives, trends in the determinants of the issuer's profits and the issuer's management capability and practices.

Warrants. Warrants are instruments that entitle the holder to buy an equity security at a specific price for a specific period of time. Changes in the value of a warrant do not necessarily correspond to changes in the value of its underlying security. The price of a warrant may be more volatile than the price of its underlying security, and a warrant may offer greater potential for capital appreciation as well as capital loss. Warrants do not entitle a holder to dividends or voting rights with respect to the underlying security and do not represent any rights in the assets of the issuing company. A warrant ceases to have value if it is not exercised prior to its expiration date. These factors can make warrants more speculative than other types of investments.

Exchange-Traded Funds

The Fund may invest in shares of other exchange-traded funds ("ETFs"). ETFs are investment companies that trade like stocks. (See also "Investment Companies.") Like stocks, shares of ETFs are not traded at NAV, but may trade at prices above or below the value of their underlying portfolios. The price of an ETF is derived from and based upon the securities held by the ETF. Accordingly, the level of risk involved in the purchase or sale of an ETF is similar to the risk involved in the purchase or sale of a traditional common stock, except that the pricing mechanism for an ETF is based on a basket of stocks. Thus, the risks of owning an ETF generally reflect the risks of owning the underlying securities it is designed to track, although lack of liquidity in an ETF could result in its being more volatile than the underlying portfolio of securities. Disruptions in the markets for the securities underlying ETFs purchased or sold by the Fund could result in losses on the Fund's investment in ETFs. ETFs also have management fees that increase their costs versus the costs of owning the underlying securities directly. A portfolio manager may from time to time invest in ETFs, primarily as a means of gaining exposure for the Fund to the equity market without investing in individual common stocks, particularly in the context of managing cash flows into the Fund or where access to a local market is restricted or not cost-effective. The Fund may invest in certain ETFs that have obtained exemptive orders from the SEC that permit registered investment companies such as the Fund to invest in those ETFs beyond the limits of Section 12(d)(1) of the 1940 Act, subject to certain terms and conditions, or in reliance on exemptive rules from Section 12(d)(1) of the 1940 Act. The Fund may also rely on Rule 12d1-4 under the 1940 Act, which provides an exemption from Section 12(d)(1) that allows the Fund to invest all of its assets in other registered funds, including ETFs, if the Fund satisfies certain conditions specified in the

Rule. Ordinarily, the 1940 Act limits the Fund's investments in a single ETF to 5% of its total assets and in all ETFs to 10% of its total assets. In reliance on such exemptive orders or rules, the Fund may generally invest in excess of these 5% and 10% limitations in a single ETF or in multiple ETFs, respectively. For additional information, see "Investment Companies" below.

The Fund may invest its net assets in ETFs that invest in securities similar to those in which the Fund may invest directly, and count such holdings towards various guideline tests.

The Fund may invest in ETFs to gain broad market, sector or asset class exposure, including during periods when it has large amounts of uninvested cash or when the Adviser believes share prices of ETFs offer attractive values, subject to any applicable investment restrictions in the Prospectus and this SAI.

In connection with its investment in ETF shares, the Fund incurs various costs. The Fund may also realize capital gains or losses when ETF shares are sold, and the purchase and sale of the ETF shares may generate a brokerage commission that may result in costs. In addition, the Fund will be subject to other fees as an investor in ETFs. Generally, those fees include, but are not limited to, trustee fees, operating expenses, licensing fees, registration fees and marketing expenses, each of which will be reflected in the NAV of the ETF and therefore its shares.

There is a risk that an ETF in which the Fund invests may terminate due to extraordinary events that may cause service providers to the ETF, such as the trustee or sponsor, to close or otherwise fail to perform their obligations to the ETF. Also, because the ETFs in which the Fund may principally invest are granted licenses to use the relevant indices as a basis for determining their compositions and otherwise to use certain trade names, the ETFs may terminate if the license agreements are terminated. In addition, an ETF may terminate if its NAV falls below a certain amount.

Foreign Investments and Currencies

As a non-principal investment strategy, the Fund may invest in foreign companies, typically through the sale and purchase of American Depositary Receipts ("ADRs"). ADRs are certificates evidencing ownership of shares of a foreign-based issuer held by a U.S. bank or similar financial institution as depository. ADRs are denominated in U.S. dollars.

American Depositary Receipts. The Fund may make foreign investments through the purchase and sale of sponsored or unsponsored ADRs. ADRs are receipts typically issued by a U.S. bank or trust company which evidence ownership of underlying securities issued by a foreign corporation. Generally, ADRs, in registered form, are denominated in U.S. dollars and are designed for use in the U.S. securities markets. The Fund may purchase ADRs regardless of whether they are "sponsored" or "unsponsored." "Sponsored" ADRs are issued jointly by the issuer of the underlying security and a depository, whereas "unsponsored" ADRs are issued without participation of the issuer of the deposited security. Holders of unsponsored ADRs generally bear all the costs of such facilities and the depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through voting rights to the holders of such receipts in respect of the deposited securities. As a result, a purchaser of unsponsored depository receipts may not have unlimited voting rights and may not receive as much information about the issuer of the underlying securities as with a sponsored depository receipt. Therefore, there may not be a correlation between information concerning the issuer of the security and the market value of an unsponsored ADR. ADRs may result in a withholding tax by the foreign country of source which will have the effect of reducing the income distributable to shareholders. For purposes of the Fund's investment policies, ADRs are deemed to have the same classification as the underlying securities they represent. Thus, an ADR representing ownership of common stock will be treated as common stock.

Risks of Investing in Foreign Securities. Investments in foreign securities, including ADRs, involve certain inherent risks that could unfavorably affect a shareholder's account, including the following:

Political and Economic Factors. Individual foreign economies of certain countries may differ favorably or unfavorably from the U.S. economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resource self-sufficiency, diversification and balance of payments position. Governments in certain foreign countries also continue to participate to a significant degree, through ownership interest or regulation, in their respective economies. Action by these governments could include restrictions on foreign investment, nationalization, expropriation of goods or imposition of taxes, and could have a significant effect on market prices of securities and payment of interest. The economies of many foreign countries are heavily dependent upon international trade and are accordingly affected by the trade policies and economic conditions of their trading partners. Enactment by these trading partners of protectionist trade legislation could have a significant adverse effect upon the securities markets of such countries.

The United Kingdom (UK) withdrew from the European Union (EU) on January 31, 2020 following a June 2016 referendum referred to as "Brexit." Although the UK and EU have made a trade agreement that was entered into force on May 1, 2021, certain post-EU arrangements remain unresolved and subject to further negotiation and agreement. There is significant market uncertainty regarding Brexit's ramifications, and the range of possible political, regulatory, economic and market outcomes are difficult to predict. The uncertainty surrounding the UK's economy, and its legal, political, and economic relationship with the remaining member states of the EU, may cause considerable disruption in securities markets, including increased volatility and illiquidity, as well as currency fluctuations in the British pound's exchange rate against the U.S. dollar.

Currency Fluctuations. The Fund may invest in securities denominated in foreign currencies. Accordingly, a change in the value of any such currency against the U.S. dollar will result in a corresponding change in the U.S. dollar value of the Fund's assets denominated in that currency. Such changes will also affect the Fund's income. The value of the Fund's assets may also be affected significantly by currency restrictions and exchange control regulations enacted from time to time.

Market Characteristics. The Adviser expects that many foreign securities in which the Fund may invest will be purchased in over-the-counter markets or on exchanges located in the countries in which the principal offices of the issuers of the various securities are located, if that is the best available market. Foreign exchanges and markets may be more volatile than those in the United States. While growing in volume, they usually have substantially less volume than U.S. markets, and the Fund's foreign securities may be less liquid and more volatile than U.S. securities. Moreover, settlement practices for transactions in foreign markets may differ from those in United States markets, and may include delays beyond periods customary in the United States. Foreign security trading practices, including those involving securities settlement where Fund assets may be released prior to receipt of payment or securities, may expose the Fund to increased risk in the event of a failed trade or the insolvency of a foreign broker-dealer.

Legal and Regulatory Matters. Certain foreign countries may have less supervision of securities markets, brokers and issuers of securities, and less financial information available from issuers, than is available in the United States.

Taxes. The interest and dividends payable on certain of the Fund's foreign portfolio securities may be subject to foreign withholding taxes, thus reducing the net amount of income available for distribution to Fund shareholders.

Costs. To the extent that the Fund invests in foreign securities, its expense ratio is likely to be higher than those of investment companies investing only in domestic securities, since the cost of maintaining the custody of foreign securities is higher.

Emerging Markets. Some of the companies in which the Fund may invest may be located in developing or emerging markets, which entail additional risks, including: less social, political and economic stability; smaller securities markets and lower trading volume, which may result in less liquidity and greater price volatility; national policies that may restrict the Fund's investment opportunities, including restrictions on investments in issuers or industries, or expropriation or confiscation of assets or property; and less developed legal structures governing private or foreign investment.

In considering whether to invest in the securities of a foreign company, the Adviser considers such factors as the characteristics of the particular company, differences between economic trends and the performance of securities markets within the U.S. and those within other countries, and also factors relating to the general economic, governmental and social conditions of the country or countries where the company is located. The extent to which the Fund will be invested in foreign companies and countries and depositary receipts will fluctuate from time to time within the limitations described in the Prospectus, depending on the Adviser's assessment of prevailing market, economic and other conditions.

Short Sales

As a principal investment strategy, the Fund may seek to hedge investments or realize additional gains through short sales. Short sales are transactions in which the Fund sells a security it does not own in anticipation of a decline in the value of that security relative to the long positions held by the Fund. To complete such a transaction, the Fund must borrow the security to make delivery to the buyer. The Fund then is obligated to replace the security borrowed by purchasing it at the market price at or prior to the time of replacement. The price at such time may be more or less than the price at which the security was sold by the Fund. Until the security is replaced, the Fund is required to repay the lender any dividends or interest that accrues during the period of the loan. To borrow the security, the Fund also may be required to pay a premium, which would increase the cost of the security sold. The net proceeds of the short sale will be retained by the broker (or by the Fund's custodian in a special custody account), to the extent necessary to meet margin requirements, until the short position is closed out. The Fund also will incur transaction costs in effecting short sales.

The Fund will incur a loss as a result of the short sale if the price of the security increases between the date of the short sale and the date on which the Fund replaces the borrowed security. Short sales may, however, protect the Fund against the risk of losses in the value of its portfolio securities because any unrealized losses with respect to such portfolio securities should be wholly or partially offset by a corresponding gain in the short position. However, any potential gains in such portfolio securities would be wholly or partially offset by a corresponding loss in the short position. The extent to which such gains or losses are offset will depend upon the amount of securities sold short relative to the amount the Fund owns, either directly or indirectly, and, in the case where the Fund owns convertible securities, changes in the conversion premium. There can be no assurance that the Fund will be able to close out a short position at any particular time or at an acceptable price.

The Fund also must segregate liquid assets equal to the difference between (a) the market value of the securities sold short at the time they were sold short and (b) the value of the collateral deposited with the broker in connection with the short sale (not including the proceeds from the short sale). While the short position is open, the Fund must maintain segregated assets at such a level that the amount segregated plus the amount deposited with the broker as collateral equal the current market value of the securities sold short.

U.S. Government Obligations

As a non-principal investment strategy, the Fund may invest in U.S. Government obligations. U.S. Government obligations include securities issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities. U.S. Treasury obligations differ mainly in the length of their maturity. Treasury bills, the most frequently issued marketable government securities, have a maturity of up to one year and are issued on a discount basis. U.S. Government obligations also include securities issued or guaranteed by federal agencies or instrumentalities, including government-sponsored enterprises.

Payment of principal and interest on U.S. Government obligations may be backed by the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. In the latter case, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, which agency or instrumentality may be privately owned. There can be no assurance that the U.S. Government would provide financial support to its agencies or instrumentalities (including government-sponsored enterprises) where it is not obligated to do so. See “Agency Obligations,” below. As a result, there is a risk that these entities will default on a financial obligation.

In addition, U.S. Government obligations are subject to fluctuations in market value due to fluctuations in market interest rates. As a general matter, the value of debt instruments, including U.S. Government obligations, declines when market interest rates increase and rises when market interest rates decrease. Certain types of U.S. Government obligations are subject to fluctuations in yield or value due to their structure or contract terms.

Agency Obligations

As a non-principal investment strategy, the Fund may make short-term investments in agency obligations, such as the Export-Import Bank of the United States, Tennessee Valley Authority, Resolution Funding Corporation, Farmers Home Administration, Federal Home Loan Banks, Federal Intermediate Credit Banks, Federal Farm Credit Banks, Federal Land Banks, Federal Housing Administration, Government National Mortgage Association (“GNMA”), commonly known as “Ginnie Mae,” the Federal National Mortgage Association (“FNMA”), commonly known as “Fannie Mae,” the Federal Home Loan Mortgage Corporation (“FHLMC”), commonly known as “Freddie Mac” and the Student Loan Marketing Association (“SLMA”). Some obligations issued or guaranteed by U.S. government agencies, including Ginnie Mae pass-through certificates, are supported by the full faith and credit of the U.S. Treasury. Some, such as those of the Export-Import Bank of United States, are supported only by the right of the issuer to borrow from the Treasury. Others, such as those of the FNMA and FHLMC, are supported by only the discretionary authority of the U.S. government to purchase the agency’s obligations. No assurance can be given that the U.S. government would provide financial support to U.S. government-sponsored instrumentalities because they are not obligated by law to do so. As a result, there is a risk that these entities will default on a financial obligation. In September 2008, at the direction of the U.S. Treasury, FNMA and FHLMC were placed into conservatorship under the Federal Housing Finance Agency, a newly created independent regulator. The U.S. government also took steps to provide additional financial support to FNMA and FHLMC. No assurance can be given that the U.S. Treasury initiatives with respect to FNMA and FHLMC will be successful.

Fixed-Income Securities

As a non-principal investment strategy, the Fund may invest in a wide range of fixed-income securities, which may include obligations of any rating or maturity.

The Fund may invest in investment grade corporate debt securities and lower-rated corporate debt securities (commonly known as “junk bonds”). Lower-rated or high yield debt securities include corporate high yield debt securities, zero-coupon securities, payment-in kind securities and strips. Investment grade corporate bonds are those rated as “investment grade” by a nationally recognized statistical rating organization. The Fund may also invest in unrated securities.

Junk Bonds. Junk bonds generally offer a higher current yield than that available for higher-grade issues. However, lower-rated securities involve higher risks, in that they are especially subject to adverse changes in general economic conditions and in the industries in which the issuers are engaged, to changes in the financial condition of the issuers and to price fluctuations in response to changes in interest rates. During periods of economic downturn or rising interest rates, highly leveraged issuers may experience financial stress that could adversely affect their ability to make payments of interest and principal and increase the possibility of default. In addition, the market for lower-rated debt securities has expanded rapidly in recent years, and its growth paralleled a long economic expansion. At times in recent years, the prices of many lower-rated debt securities declined substantially, reflecting an expectation that many issuers of such securities might experience financial difficulties. As a result, the yields on lower-rated debt securities rose dramatically, but such higher yields did not reflect the value of the income stream that holders of such securities expected, but rather, the risk that holders of such securities could lose a substantial portion of their value as a result of the issuers' financial restructuring or default. There can be no assurance that such declines will not recur. The market for lower-rated debt issues generally is thinner and less active than that for higher quality securities, which may limit the Fund's ability to sell such securities at fair value in response to changes in the economy or financial markets. Adverse publicity and investor perceptions, whether or not based on fundamental analysis, may also decrease the values and liquidity of lower-rated securities, especially in a thinly traded market. Changes by recognized rating services in their rating of a fixed-income security may affect the value of these investments. The Fund will not necessarily dispose of a security when its rating is reduced below its rating at the time of purchase. However, the Adviser will monitor the investment to determine whether continued investment in the security will assist in meeting the Fund's investment objective.

Corporate Debt Securities. Corporate debt securities are fixed-income securities issued by businesses to finance their operations, although corporate debt instruments may also include bank loans to companies. Notes, bonds, debentures and commercial paper are the most common types of corporate debt securities, with the primary difference being their maturities and secured or unsecured status. Commercial paper has the shortest term and is usually unsecured.

The broad category of corporate debt securities includes debt issued by domestic or foreign companies of all kinds, including those with small-, mid- and large-capitalizations. Corporate debt may be rated investment-grade or below investment-grade and may carry variable or floating rates of interest.

Because of the wide range of types and maturities of corporate debt securities, as well as the range of creditworthiness of its issuers, corporate debt securities have widely varying potentials for return and risk profiles. For example, commercial paper issued by a large established domestic corporation that is rated investment-grade may have a modest return on principal, but carries relatively limited risk. On the other hand, a long-term corporate note issued by a small foreign corporation from an emerging market country that has not been rated may have the potential for relatively large returns on principal, but carries a relatively high degree of risk.

Corporate debt securities carry both credit risk and interest rate risk. Credit risk is the risk that the Fund could lose money if the issuer of a corporate debt security is unable to pay interest or repay principal when it is due. Some corporate debt securities that are rated below investment-grade are generally considered speculative because they present a greater risk of loss, including default, than higher quality debt securities. The credit risk of a particular issuer's debt security may vary based on its priority for repayment. For example, higher ranking (senior) debt securities have a higher priority than lower ranking (subordinated) securities. This means that the issuer might not make payments on subordinated securities while continuing to make payments on senior securities. In addition, in the event of bankruptcy, holders of higher-ranking senior securities may receive amounts otherwise payable to the holders of more junior securities. Interest rate risk is the risk that the value of certain corporate debt securities will tend to fall when interest rates rise. In

general, corporate debt securities with longer terms tend to fall more in value when interest rates rise than corporate debt securities with shorter terms.

Zero-Coupon Securities. Zero-coupon securities make no periodic interest payments, but are sold at a deep discount from their face value. The buyer recognizes a rate of return determined by the gradual appreciation of the security, which is redeemed at face value on a specified maturity date. The discount varies depending on the time remaining until maturity, as well as market interest rates, liquidity of the security and the issuer's perceived credit quality. If the issuer defaults, the holder may not receive any return on its investment. Because zero-coupon securities bear no interest and compound semiannually at the rate fixed at the time of issuance, their value generally is more volatile than the value of other fixed-income securities. Since zero-coupon bondholders do not receive interest payments, when interest rates rise, zero-coupon securities fall more dramatically in value than bonds paying interest on a current basis. When interest rates fall, zero-coupon securities rise more rapidly in value because the bonds reflect a fixed rate of return. An investment in zero-coupon and delayed interest securities may cause the Fund to recognize income regardless of whether the Fund receives cash payments, and therefore the Fund may be required to make required distributions to shareholders before it receives any cash payments on its investment. As a result, the Fund may have to dispose of its portfolio investments under disadvantageous circumstances in order to generate sufficient cash to satisfy the distribution requirements for maintaining its status as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code").

Unrated Debt Securities. Unrated debt, while not necessarily lower in quality than rated securities, may not have as broad a market. Because of the size and perceived demand for the issue, among other factors, certain issuers may decide not to pay the cost of getting a rating for their bonds. The creditworthiness of the issuer, as well as any financial institution or other party responsible for payments on the security, will be analyzed to determine whether to purchase unrated bonds.

Securities of Other Investment Companies

As a non-principal investment strategy, the Fund may invest its assets in shares of other investment companies, including money market funds, or other exchange traded funds ("ETFs"). The Fund's investments in money market funds may be used for cash management purposes and to maintain liquidity in order to satisfy redemption requests or pay unanticipated expenses. The Fund limits its investments in securities issued by other investment companies in accordance with the 1940 Act. Section 12(d)(1) of the 1940 Act precludes the Fund from acquiring: (i) more than 3% of the total outstanding shares of another investment company; (ii) shares of another investment company having an aggregate value in excess of 5% of the value of the total assets of the Fund; or (iii) shares of another registered investment company and all other investment companies having an aggregate value in excess of 10% of the value of the total assets of the Fund. However, Section 12(d)(1)(F) of the 1940 Act provides that the provisions of Section 12(d)(1) shall not apply to securities purchased or otherwise acquired by the Fund if: (i) immediately after such purchase or acquisition not more than 3% of the total outstanding shares of such investment company is owned by the Fund and all affiliated persons of the Fund; and (ii) the Fund has not offered or sold, and is not proposing to offer or sell its shares through a principal underwriter or otherwise at a public or offering price that includes a sales load of more than 1½%. Rule 12d1-3 under the 1940 Act provides that the Fund relying on Section 12(d)(1)(F) may offer or sell any securities it issues through a principal underwriter or otherwise at a public offering price that includes a sales load of more than 1½% if any sales charges and service fees charged do not exceed the limits set forth in FINRA Rule 2830.

If the Fund invests in investment companies, including ETFs, pursuant to Section 12(d)(1)(F), it must comply with the following voting restrictions: when such Fund exercises voting rights, by proxy or otherwise, with respect to investment companies owned by the Fund, the Fund will either seek instruction from the Fund's shareholders with regard to the voting of all proxies and vote in accordance with such instructions, or vote the shares held by the Fund in the same proportion as the vote of all other holders of such security. In

addition, an investment company purchased by the Fund pursuant to Section 12(d)(1)(F) shall not be required to redeem its shares in an amount exceeding 1% of such investment company's total outstanding shares in any period of less than thirty days. In addition to the advisory and operational fees the Fund bears directly in connection with their own operation, the Fund also bears its pro rata portion of the advisory and operational expenses of each other investment company.

The Fund may also rely on Rule 12d1-4 of the 1940 Act, which provides an exemption from Section 12(d)(1) that allows the Fund to invest all of its assets in other registered funds, including ETFs, if the Fund satisfies certain conditions specified in the Rule, including, among other conditions, that the Fund and its advisory group will not control (individually or in the aggregate) an acquired fund (*e.g.*, hold more than 25% of the outstanding voting securities of an acquired fund that is a registered open-end management investment company).

Real Estate Investment Trusts

As a non-principal investment strategy, the Fund may invest in real estate investment trusts ("REITs"). Equity REITs invest primarily in real property and earn rental income from leasing those properties. They also may realize gains or losses from the sale of properties. Equity REITs generally exercise some degree of control over the operational aspects of their real estate investments, lease terms and property maintenance and repair. Mortgage REITs invest primarily in mortgages and similar real estate interests and receive interest payments from the owners of the mortgaged properties and are paid interest by the owners of the financed properties. Hybrid REITs invest both in real property and in mortgages.

A REIT generally is not taxed on income distributed to its shareholders if it complies with certain federal income tax requirements relating primarily to its organization, ownership, assets and income and, further, if it distributes at least 90% of its taxable income to shareholders each year. Consequently, REITs tend to focus on income-producing real estate investments.

The Fund's investments in REITs may be adversely affected by deteriorations of the real estate rental market, in the case of REITs that primarily own real estate, or by deteriorations in the creditworthiness of property owners and changes in interest rates in the case of REITs that primarily hold mortgages. Equity and mortgage REITs also are dependent upon specialized management skills, may not be diversified in their holdings and are subject to the risks of financing projects. REITs also may be subject to heavy cash flow dependency, defaults by borrowers and self-liquidation. Under certain circumstances, a REIT may fail to qualify for pass-through treatment for tax purposes, which would subject the REIT to federal income taxes at the REIT level and adversely affect the value of the Fund's investment in such REIT.

In general, qualified REIT dividends that an investor receives directly from a REIT are automatically eligible for the 20% qualified business income deduction. The Internal Revenue Service ("IRS") has issued final Treasury Regulations that permit a dividend or part of a dividend paid by a RIC and reported as a "section 199A dividend" to be treated by the recipient as a qualified REIT dividend for purposes of the 20% qualified business income deduction, if certain holding period and other requirements have been satisfied by the recipient with respect to its Fund shares.

Derivatives

The Fund may invest in derivative securities as a non-principal investment strategy. Derivatives are financial instruments whose value is based on an underlying asset, such as a stock or a bond, an underlying economic factor, such as an interest rate or a market benchmark, such as an index. Unless otherwise stated in the Fund's prospectus, the Fund may use derivatives for risk management purposes, including to gain exposure to various markets in a cost efficient manner, to reduce transaction costs, alter duration or to remain fully invested. They may also invest in derivatives to protect it from broad fluctuations in market prices, interest rates or foreign currency exchange rates (a practice known as "hedging"). When hedging is successful, the

Fund will have offset any depreciation in the value of its portfolio securities by the appreciation in the value of the derivative position. Although techniques other than the sale and purchase of derivatives could be used to control the exposure of the Fund to market fluctuations, the use of derivatives may be a more effective means of hedging this exposure. To the extent that the Fund engages in hedging, there can be no assurance that any hedge will be effective or that there will be a hedge in place at any given time.

The use of derivatives is subject to applicable regulations of the SEC, the several exchanges upon which they are traded and the CFTC. In addition, a fund's ability to use derivatives will be limited by tax considerations. On October 28, 2020, the SEC adopted new regulations governing the use of derivatives by registered investment companies as Rule 18f-4 under the 1940 Act ("Rule 18f-4"). Rule 18f-4 imposes limits on the amount of derivatives a fund can enter into, eliminates the asset segregation and cover framework arising from prior SEC guidance for covering derivatives and certain financial instruments currently used by funds to comply with Section 18 of the 1940 Act and treats derivatives as senior securities. Under Rule 18f-4 a fund's derivatives exposure is limited through a value-at-risk test. Funds whose use of derivatives is more than a limited specified exposure amount are required to establish and maintain a comprehensive derivatives risk management program, subject to oversight by a fund's board of trustees, and appoint a derivatives risk manager for purposes of Rule 18f-4. The Fund has implemented a derivatives risk management program that complies with Rule 18f-4.

Swap Agreements

The Fund may enter into swap agreements, including equity swaps and equity-basket swaps. Swap agreements are two-party contracts entered into primarily by institutional investors for periods ranging from a day to more than one year. In a standard "swap" transaction, two parties agree to exchange the returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments. The gross returns to be exchanged or "swapped" between the parties are calculated with respect to a "notional amount," *i.e.*, the return on or increase in value of a particular dollar amount invested in a "basket" of securities representing a particular index.

Most swap agreements entered into by the Fund calculate the obligations of the parties to the agreement on a "net basis." Consequently, the Fund's current obligations (or rights) under a swap agreement will generally be equal only to the net amount to be paid or received under the agreement based on the relative values of the positions held by each party to the agreement (the "net amount"). Payments may be made at the conclusion of a swap agreement or periodically during its term.

Swap agreements do not involve the delivery of securities or other underlying assets. Accordingly, if a swap is entered into on a net basis, if the other party to a swap agreement defaults, the Fund's risk of loss consists of the net amount of payments that such Fund is contractually entitled to receive, if any.

The net amount of the excess, if any, of the Fund's obligations over its entitlements with respect to a swap agreement entered into on a net basis will be accrued daily and an amount of cash or liquid asset having an aggregate NAV at least equal to the accrued excess will be maintained in an account with the Custodian that satisfies the 1940 Act. The Fund will also establish and maintain such accounts with respect to their total obligations under any swaps that are not entered into on a net basis. Obligations under swap agreements so covered will not be construed to be "senior securities" for purposes of the Fund's investment restriction concerning senior securities.

Because they are two-party contracts and may have terms of greater than seven days, swap agreements may be considered to be illiquid for the Fund's illiquid investment limitations. The Fund will not enter into any swap agreement unless the Adviser believes that the other party to the transaction is creditworthy. The Fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty.

The Fund may enter into a swap agreement in circumstances where the Adviser believes that it may be more cost effective or practical than buying the underlying securities or a futures contract or an option on such securities. The counterparty to any swap agreement will typically be a bank, investment banking firm or broker/dealer. The counterparty will generally agree to pay the Fund the amount, if any, by which the notional amount of the swap agreement would have increased in value had it been invested in the particular stocks represented in the index, plus the dividends that would have been received on those stocks. The Fund will agree to pay to the counterparty a floating rate of interest on the notional amount of the swap agreement plus the amount, if any, by which the notional amount would have decreased in value had it been invested in such stocks. Therefore, the return to the Fund on any swap agreement should be the gain or loss on the notional amount plus dividends on the stocks less the interest paid by the Fund on the notional amount.

The swap market has grown substantially in recent years with a large number of banks and investment banking firms acting both as principals and as agents utilizing standardized swap documentation. As a result, the swap market has become relatively liquid in comparison with the markets for other similar instruments that are traded in the over-the-counter (“OTC”) market. The Adviser, under the supervision of the Board, is responsible for determining and monitoring the liquidity of Fund transactions in swap agreements.

The use of equity swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio securities transactions.

When-Issued Securities

The Fund may invest in when-issued securities as a non-principal investment strategy. When-issued securities transactions involve a commitment by the Fund to purchase or sell particular securities with payment and delivery taking place at a future date, and permit the Fund to lock in a price or yield on a security it owns or intends to purchase, regardless of future changes in interest rates or market action. No income accrues to the purchaser of a security on a when-issued basis prior to delivery. Such securities are recorded as an asset and are subject to changes in value based upon changes in the general level of interest rates. Purchasing a security on a when-issued basis can involve a risk that the market price at the time of delivery may be lower than the agreed-upon purchase price, in which case there could be an unrealized loss at the time of delivery. The Funds will only make commitments to purchase securities on a when-issued basis with the intention of actually acquiring the securities, but may sell them before the settlement date if it is deemed advisable. The Fund will establish in a segregated account, or earmark as segregated on the books of the Fund or the Fund’s custodian, an amount of liquid assets equal to 102% of the amount of its commitment to purchase securities on a when-issued basis. These assets will be marked-to-market daily, and the Fund will increase the aggregate value of the assets, as necessary, to ensure that the assets are at least equal to 102% of the amount of the Fund’s commitments.

Repurchase Agreements

The Fund may enter into repurchase agreements as a non-principal strategy. Under such agreements, the seller of the security agrees to repurchase it at a mutually agreed upon time and price. The repurchase price may be higher than the purchase price, the difference being income to the Fund, or the purchase and repurchase prices may be the same, with interest at a stated rate due to the Fund together with the repurchase price on repurchase. In either case, the income to the Fund is unrelated to the interest rate on the security itself. Such repurchase agreements will be made only with banks with assets of \$500 million or more that are insured by the Federal Deposit Insurance Corporation or with Government securities dealers recognized by the Federal Reserve Board and registered as broker-dealers with the SEC or exempt from such registration. The Fund will generally enter into repurchase agreements of short durations, from overnight to one week, although the underlying securities generally have longer maturities. The Fund may not enter into a repurchase agreement with more than seven days to maturity if, as a result, more than 15% of the value of the Fund’s net assets would be invested in illiquid investments including such repurchase agreements.

For purposes of the 1940 Act, a repurchase agreement is deemed to be a loan from the Fund to the seller of the U.S. Government security that is subject to the repurchase agreement. It is not clear whether a court would consider the U.S. Government security acquired by the Fund subject to a repurchase agreement as being owned by the Fund or as being collateral for a loan by the Fund to the seller. In the event of the commencement of bankruptcy or insolvency proceedings with respect to the seller of the U.S. Government security before its repurchase under a repurchase agreement, the Fund could encounter delays and incur costs before being able to sell the security. Delays may involve loss of interest or a decline in price of the U.S. Government security. If a court characterizes the transaction as a loan and the Fund has not perfected a security interest in the U.S. Government security, the Fund may be required to return the security to the seller's estate and be treated as an unsecured creditor of the seller. As an unsecured creditor, the Fund would be at the risk of losing some or all of the principal and income involved in the transaction. As with any unsecured debt instrument purchased for the Fund, the investment advisor seeks to minimize the risk of loss through repurchase agreements by analyzing the creditworthiness of the other party, in this case the seller of the U.S. Government security.

Apart from the risk of bankruptcy or insolvency proceedings, there is also the risk that the seller may fail to repurchase the security. However, the Fund will always receive as collateral for any repurchase agreement to which it is a party securities acceptable to the Adviser, the market value of which is equal to at least 100% of the amount invested by the Fund plus accrued interest, and the Fund will make payment against such securities only upon physical delivery or evidence of book entry transfer to the account of U.S. Bank National Association (the "Custodian"), the Fund's custodian. If the market value of the U.S. Government security subject to the repurchase agreement becomes less than the repurchase price (including interest), the Fund will direct the seller of the U.S. Government security to deliver additional securities so that the market value of all securities subject to the repurchase agreement will equal or exceed the repurchase price. It is possible that the Fund could be unsuccessful in seeking to enforce on the seller a contractual obligation to deliver additional securities.

Restricted Securities

As a non-principal investment strategy, the Fund may invest in securities that are subject to restrictions on resale because they have not been registered under the Securities Act of 1933, as amended (the "Securities Act"). These securities are sometimes referred to as private placements. Although securities that may be resold only to "qualified institutional buyers" in accordance with the provisions of Rule 144A under the Securities Act are technically considered "restricted securities," the Fund may purchase Rule 144A securities without regard to the limitation on investments in illiquid investments described below in the "Illiquid Investments" section, provided that a determination is made that such securities are not illiquid investments. The Fund may also purchase certain commercial paper issued in reliance on the exemption from regulations in Section 4(a)(2) of the Securities Act ("4(a)(2) Paper"). The Adviser will determine the liquidity of Rule 144A securities and 4(a)(2) Paper under the supervision of the Board of Trustees. The liquidity of Rule 144A securities and 4(a)(2) Paper will be monitored by the Adviser, and if as a result of changed conditions it is determined that a Rule 144A security or 4(a)(2) Paper is no longer liquid, the Fund's holdings of illiquid investments will be reviewed to determine what, if any, action is required to assure that the Fund does not exceed its applicable percentage limitation for investments in illiquid investments.

Limitations on the resale of restricted securities may have an adverse effect on the marketability of portfolio securities and the Fund might be unable to dispose of restricted securities promptly or at reasonable prices and might thereby experience difficulty satisfying redemption requirements. The Fund might also have to register such restricted securities in order to dispose of them, resulting in additional expense and delay. Adverse market conditions could impede such a public offering of securities.

Securities Lending

As a non-principal investment strategy, the Fund may lend securities from its portfolio to brokers, dealers and financial institutions (but not individuals) in order to increase the return on its portfolio. The value of the loaned securities may not exceed one-third of the Fund's total net assets and loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. The Fund will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, the Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. The Fund may pay reasonable administrative and custodial fees in connection with loans of portfolio securities and may pay a portion of the interest or fee earned thereon to the borrower or a placing broker.

In determining whether or not to lend a security to a particular broker, dealer or financial institution, the Adviser considers all relevant facts and circumstances, including the size, creditworthiness and reputation of the broker, dealer or financial institution. Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that the Fund may receive as collateral will not become part of the Fund's investment portfolio at the time of the loan and, in the event of a default by the borrower, the Fund will, if permitted by law, dispose of such collateral except for such part thereof that is a security in which the Fund is permitted to invest. During the time securities are on loan, the borrower will pay the applicable Fund any accrued income on those securities, and the Fund may invest the cash collateral and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral. The Fund will be responsible for the risks associated with the investment of the cash collateral, including the risk that the Fund may lose money on the investment or may fail to earn sufficient income to meet its obligation to the borrower. Any fee income received from a borrower in lieu of a dividend payment on a borrowed security will be taxed as ordinary income and will not constitute "qualified dividend" income for federal income tax purposes, which is generally taxed at the same rate as long-term capital gains for federal income tax purposes. While the Fund does not have the right to vote securities on loan, it would terminate the loan and regain the right to vote if that were considered important with respect to the investment.

Illiquid Investments

In accordance with Rule 22e-4 (the "Liquidity Rule") under the 1940 Act, the Fund may invest up to 15% of its net assets in "illiquid investments" that are assets. For these purposes, "illiquid investments" are investments that cannot reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. Each portfolio investment must be classified at least monthly into one of four liquidity categories (highly liquid, moderately liquid, less liquid and illiquid), which are defined pursuant to the Liquidity Rule. Such classification is to be made using information obtained after reasonable inquiry and taking into account relevant market, trading and investment-specific considerations. Moreover, in making such classification determinations, the Fund determines whether trading varying portions of a position in a particular portfolio investment or asset class, in sizes that the Fund would reasonably anticipate trading, is reasonably expected to significantly affect its liquidity, and if so, the Fund takes this determination into account when classifying the liquidity of that investment. The Fund may be assisted in classification determinations by one or more third-party service providers. Assets classified according to this process as "illiquid investments" are those subject to the 15% limit on illiquid investments.

Cybersecurity Risk

With the increasing use of the Internet and technology in connection with the Fund's operations, the Fund is susceptible to greater operational and information security risks through breaches in cybersecurity. Cybersecurity breaches include, without limitation, infection by computer viruses and unauthorized access to the Fund's systems through "hacking" or other means for the purpose of misappropriating assets or sensitive information, corrupting data, or causing operations to be disrupted. Cybersecurity breaches may also occur in

a manner that does not require gaining unauthorized access, such as denial-of-service attacks or situations where authorized individuals intentionally or unintentionally release confidential information stored on the Fund's systems. A cybersecurity breach may cause disruptions and impact the Fund's business operations, which could potentially result in financial losses, inability to determine the Fund's NAV, violation of applicable law, regulatory penalties and/or fines, compliance and other costs. The Fund and its shareholders could be negatively impacted as a result. In addition, because the Fund works closely with third-party service providers (e.g., custodians), indirect cybersecurity breaches at such third-party service providers may subject Fund shareholders to the same risks associated with direct cybersecurity breaches. Further, indirect cybersecurity breaches at an issuer of securities in which the Fund invests may similarly negatively impact Fund shareholders because of a decrease in the value of these securities. While the Fund has established risk management systems designed to reduce the risks associated with cybersecurity breaches, there can be no assurances that such measures will be successful particularly since the Fund does not control the cybersecurity systems of issuers or third-party service providers.

Temporary Strategies; Cash or Similar Investments

For temporary defensive purposes, the Adviser may invest up to 100% of the Fund's total assets in high-quality, short-term debt securities and money market instruments. These short-term debt securities and money market instruments include shares of other ETFs, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. Taking a temporary defensive position may result in the Fund not achieving its investment objective.

For longer periods of time, the Fund may hold a substantial cash position. If the market advances during periods when the Fund is holding a large cash position, the Fund may not participate to the extent it would have if the Fund had been more fully invested, and this may result in the Fund not achieving its investment objective during that period. To the extent that the Fund uses a money market fund for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund's management fees and operational expenses.

The Fund may invest in any of the following securities and instruments:

Money Market Mutual Funds. The Fund may invest in money market mutual funds in connection with its management of daily cash positions or as a temporary defensive measure. Generally, money market mutual funds seek to earn income consistent with the preservation of capital and maintenance of liquidity. They primarily invest in high quality money market obligations, including securities issued or guaranteed by the U.S. Government or its agencies and instrumentalities, bank obligations and high-grade corporate instruments. These investments generally mature within 397 days from the date of purchase. An investment in a money market mutual fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any government agency. The Fund's investments in money market mutual funds may be used for cash management purposes and to maintain liquidity in order to satisfy redemption requests or pay unanticipated expenses.

You will indirectly bear fees and expenses charged by the underlying money market mutual funds in addition to the Fund's direct fees and expenses. Furthermore, the use of this strategy could affect the timing, amount and character of distributions to you and therefore may increase the amount of taxes payable by you.

Bank Certificates of Deposit, Bankers' Acceptances and Time Deposits. The Fund may acquire certificates of deposit, bankers' acceptances and time deposits. Certificates of deposit are negotiable certificates issued against monies deposited in a commercial bank for a definite period of time and earning a specified return. Bankers' acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are "accepted" by a bank, meaning in effect that the bank unconditionally agrees to pay the face value of the instrument on maturity. Certificates of deposit and bankers' acceptances

acquired by the Fund will be dollar-denominated obligations of domestic or foreign banks or financial institutions which at the time of purchase have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. Government.

If the Fund holds instruments of foreign banks or financial institutions, it may be subject to additional investment risks that are different in some respects from those incurred by a fund that invests only in debt obligations of U.S. domestic issuers. Such risks include future political and economic developments, the possible imposition of withholding taxes by the particular country in which the issuer is located on interest income payable on the securities, the possible seizure or nationalization of foreign deposits, the possible establishment of exchange controls or the adoption of other foreign governmental restrictions which might adversely affect the payment of principal and interest on these securities.

Domestic banks and foreign banks are subject to different governmental regulations with respect to the amount and types of loans that may be made and interest rates that may be charged. In addition, the profitability of the banking industry depends largely upon the availability and cost of funds for the purpose of financing lending operations under prevailing money market conditions. General economic conditions as well as exposure to credit losses arising from possible financial difficulties of borrowers play an important part in the operations of the banking industry.

As a result of federal and state laws and regulations, domestic banks are, among other things, required to maintain specified levels of reserves, limited in the amount which they can loan to a single borrower and subject to other regulations designed to promote financial soundness. However, such laws and regulations do not necessarily apply to foreign bank obligations that the Fund may acquire.

In addition to purchasing certificates of deposit and bankers' acceptances, to the extent permitted under the investment objective and policies stated above and in the Prospectus, the Fund may make interest-bearing time or other interest-bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

Savings Association Obligations. The Fund may invest in certificates of deposit (interest-bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. Government.

Commercial Paper, Short-Term Notes and Other Corporate Obligations. The Fund may invest a portion of its assets in commercial paper and short-term notes. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short-term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

Commercial paper and short-term notes will consist of issues rated at the time of purchase "A-2" or higher by S&P, "Prime-1" or "Prime-2" by Moody's, or similarly rated by another nationally recognized statistical rating organization or, if unrated, will be determined by the Adviser to be of comparable quality.

Corporate obligations include bonds and notes issued by corporations to finance longer-term credit needs than supported by commercial paper. While such obligations generally have maturities of ten years or more, the Fund may purchase corporate obligations that have remaining maturities of one year or less from the date of purchase and that are rated "A" or higher by S&P or "A" or higher by Moody's.

Investment Restrictions

Fundamental Investment Restrictions

The Trust (on behalf of the Fund) has adopted the following restrictions as fundamental policies, which may not be changed without the affirmative vote of the holders of a “majority of the outstanding voting securities” of the Fund, as defined under the 1940 Act. Under the 1940 Act, the vote of the holders of a “majority of the outstanding voting securities” means the vote of the holders of the lesser of (i) 67% of the shares of the Fund represented at a meeting at which the holders of more than 50% of its outstanding shares are represented; or (ii) more than 50% of the outstanding shares of the Fund.

The Fund may not:

1. issue senior securities, borrow money or pledge its assets, except that (i) the Fund may borrow from banks in amounts not exceeding one-third (33 1/3%) of its total assets (including the amount borrowed); and (ii) this restriction shall not prohibit the Fund from engaging in options transactions or short sales in accordance with its objectives and strategies;
2. underwrite the securities of other issuers (except that the Fund may engage in transactions involving the acquisition, disposition or resale of its portfolio securities under circumstances where it may be considered to be an underwriter under the Securities Act);
3. purchase or sell real estate or interests in real estate, unless acquired as a result of ownership of securities (although the Fund may purchase and sell securities which are secured by real estate and securities of companies that invest or deal in real estate);
4. purchase or sell commodities or commodities contracts, unless acquired as a result of ownership of securities or other instruments and provided that this restriction does not prevent the Fund from engaging in transactions involving currencies and futures contracts and options thereon or investing in securities or other instruments that are secured by commodities;
5. make loans of money (except for the lending of its portfolio securities and purchases of debt securities consistent with the investment policies of the Fund);
6. with respect to 75% of its total assets, purchase the securities of any one issuer if, immediately after and as a result of such purchase, (a) the value of the Fund’s holdings in the securities of such issuer exceeds 5% of the value of the Fund’s total assets, or (b) the Fund owns more than 10% of the outstanding voting securities of the issuer; with the exception that these restrictions do not apply to the Fund’s investments in the securities of the U.S. Government, or its agencies or instrumentalities, or other investment companies); or
7. invest in the securities of any one industry if as a result, 25% or more of the Fund’s total assets would be invested in the securities of such industry, except that the foregoing does not apply to securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities.

Non-Fundamental Investment Restriction

The following non-fundamental investment restrictions are applicable to the Fund. These restrictions can be changed by the Board of Trustees, but the change will only be effective after prior written notice is given to shareholders of the Fund.

1. The Fund will not invest more than 15% of the value of its net assets in illiquid investments.⁽¹⁾
2. The Fund will not make any changes in its investment policy of investing at least 80% of net assets (plus borrowings for investment purposes) in long and short positions in equity securities of domestic companies without providing shareholders with at least 60 days' prior written notice of the change in its investment policy and changing the Fund's name.

⁽¹⁾ The term "illiquid investment" is defined as a security that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the security.

Exchange Listing and Trading

Shares are listed for trading and trade throughout the day on the Exchange.

There can be no assurance that the Fund will continue to meet the requirements of the Exchange necessary to maintain the listing of Shares. The Exchange may, but is not required to, remove Shares from the listing under any of the following circumstances: (i) the Exchange becomes aware that the Fund is no longer eligible to operate in reliance on Rule 6c-11 of the 1940 Act; (ii) the Fund no longer complies with the Exchange's requirements for Shares; or (iii) such other event shall occur or condition shall exist that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove Shares of the Fund from listing and trading upon termination of the Fund.

The Trust reserves the right to adjust the price levels of Shares in the future to help maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

Management of the Fund

Board of Trustees

The management and affairs of the Fund are supervised by the Board of Trustees. The Board of Trustees consists of seven individuals. The Trustees are fiduciaries for the Fund's shareholders and are governed by the laws of the State of Delaware in this regard. The Board of Trustees establishes policies for the operation of the Fund and appoints the officers who conduct the daily business of the Fund.

Trustees and Officers

The Trustees and the officers of the Trust are listed below with their addresses, present positions with the Trust and principal occupations over at least the last five years.

Name, Address and Year of Birth	Position(s) Held with the Trust	Term of Office and Length of Time Served	Number of Portfolios in the Trust Overseen by Trustee	Principal Occupation(s) During the Past Five Years	Other Directorships Held by Trustee During the Past Five Years
<i>Independent Trustees</i>					
Michael D. Akers, Ph.D. 615 E. Michigan St. Milwaukee, WI 53202 Year of Birth: 1955	Trustee	Indefinite Term; Since August 22, 2001	31	Professor Emeritus, Department of Accounting (June 2019-present), Professor, Department of Accounting (2004-2019), Marquette University. N/A

*Mr. Buckel is deemed to be an “interested person” of the Trust as defined by the 1940 Act due to his position and material business relationship with the Trust.

Role of the Board

The Board of Trustees provides oversight of the management and operations of the Trust. Like all funds, the day-to-day responsibility for the management and operation of the Trust is the responsibility of various service providers to the Trust and its individual series, such as the Adviser, Distributor (defined below), Custodian, and the Fund’s administrator and transfer agent, each of which are discussed in greater detail in this SAI. The Board approves all significant agreements with the Adviser, Distributor, Custodian, and the Fund’s administrator and transfer agent. The Board has appointed various individuals of certain of these service providers as officers of the Trust, with responsibility to monitor and report to the Board on the Trust’s day-to-day operations. In conducting this oversight, the Board receives regular reports from these officers and service providers regarding the Trust’s operations. The Board has appointed a Chief Compliance Officer (“CCO”) who reports directly to the Board and who administers the Trust’s compliance program and regularly reports to the Board as to compliance matters, including an annual compliance review. Some of these reports are provided as part of formal Board meetings, which are generally held five times per year, and at such other times as the Board determines is necessary, and involve the Board’s review of recent Trust operations. From time to time, one or more members of the Board may also meet with Trust officers in less formal settings, between formal Board meetings, to discuss various topics. In all cases, however, the role of the Board and of any individual Trustee is one of oversight and not of management of the day-to-day affairs of the Trust and its oversight role does not make the Board a guarantor of the Trust’s investments, operations or activities.

Board Leadership Structure

The Board has structured itself in a manner that it believes allows it to perform its oversight function effectively. The Board is composed of six Independent Trustees – Dr. Michael D. Akers, Gary A. Drska, Vincent P. Lyles, Erik K. Olstein, Lisa Zúñiga Ramírez and Gregory M. Wesley – and one Trustee who is an “interested person” (as defined by the 1940 Act) of the Trust (the “Interested Trustee”) – John P. Buckel. Accordingly, more than 85% of the members of the Board are Independent Trustees, Trustees who are not affiliated with the Adviser or its affiliates, or any other investment adviser or service provider to the Trust or any underlying fund. The Board of Trustees has established two standing committees, an Audit Committee and a Nominating Committee, which are discussed in greater detail under “Board Committees” below. Each of the Audit Committee and the Nominating Committee is composed entirely of Independent Trustees. The Independent Trustees have engaged their own independent counsel to advise them on matters relating to their responsibilities in connection with the Trust.

The Trust’s Chairperson, Mr. Buckel, is deemed to be an “interested person” of the Trust, as defined by the 1940 Act, due to his position and material business relationship with the Trust. Mr. Buckel also serves as a Vice President of U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (“Fund Services”), the Fund’s administrator. The Trust has not appointed a lead Independent Trustee.

In accordance with the fund governance standards prescribed under the 1940 Act, the Independent Trustees on the Nominating Committee select and nominate all candidates for Independent Trustee positions. Each Trustee was appointed to serve on the Board of Trustees because of his or her experience, qualifications, attributes and skills as set forth in the subsection “Trustee Qualifications” below.

The Board reviews its structure regularly in light of the characteristics and circumstances of the Trust, including the unaffiliated nature of each investment adviser and the funds managed by such adviser; the number of funds that comprise the Trust; the variety of asset classes that those funds reflect; the net assets of the Trust; the committee structure of the Trust; and the independent distribution arrangements of each of the Trust’s underlying funds.

The Board has determined that the function and composition of the Audit Committee and the Nominating Committee are appropriate to address any potential conflicts of interest that may arise from the Chairperson’s status as an Interested Trustee. In addition, the inclusion of all Independent Trustees as members of the Audit Committee and the Nominating Committee allows these Trustees to participate in the full range of the Board’s oversight duties, including oversight of risk management processes discussed below. Given the specific characteristics and circumstances of the Trust as described above, the Trust has determined that the Board’s leadership structure is appropriate.

Board Oversight of Risk Management

As part of its oversight function, the Board receives and reviews various risk management reports and assessments and discusses these matters with appropriate management and other personnel, including personnel of the Trust’s service providers. Because risk management is a broad concept composed of many elements (such as, for example, investment risk, issuer and counterparty risk, compliance risk, operational risks, business continuity risks, etc.) the oversight of different types of risks is handled in different ways. For example, the CCO regularly reports to the Board during Board meetings and meets in executive session with the Independent Trustees and their legal counsel to discuss compliance and operational risks. In addition, the Independent Trustee designated as the Audit Committee’s “audit committee financial expert” meets with the Treasurer and the Fund’s independent registered public accounting firm to discuss, among other things, the internal control structure of the Trust’s financial reporting function. The full Board receives reports from the

investment advisers to the underlying funds and the portfolio managers as to investment risks as well as other risks that may be discussed during Audit Committee meetings.

Trustee Qualifications

The Board believes that each of the Trustees has the qualifications, experience, attributes and skills appropriate to his or her continued service as a Trustee of the Trust in light of the Trust's business and structure. The Trustees have substantial business and professional backgrounds that indicate they have the ability to critically review, evaluate and assess information provided to them. Certain of these business and professional experiences are set forth in detail in the table above. In addition, the Trustees have substantial board experience and, in their service to the Trust, have gained substantial insight as to the operation of the Trust. The Board annually conducts a "self-assessment" wherein the effectiveness of the Board and the individual Trustees is reviewed.

In addition to the information provided in the table above, below is certain additional information concerning each individual Trustee. The information provided below, and in the table above, is not all-inclusive. Many of the Trustees' qualifications to serve on the Board involve intangible elements, such as intelligence, integrity, work ethic, the ability to work together, the ability to communicate effectively, the ability to exercise judgment, the ability to ask incisive questions, and commitment to shareholder interests. In conducting its annual self-assessment, the Board has determined that the Trustees have the appropriate attributes and experience to continue to serve effectively as Trustees of the Trust.

Michael D. Akers, Ph.D., CPA. Dr. Akers has served as an Independent Trustee of the Trust since 2001. Dr. Akers previously served as an independent trustee of USA Mutuals, an open-end investment company, from 2001 to June 2021. Dr. Akers has been a Professor Emeritus, Department of Accounting at Marquette University since June 2019, was Professor, Department of Accounting at Marquette University from 2004 to May 2019, was Chair of the Department of Accounting at Marquette University from 2004 to 2017, and was Associate Professor, Department of Accounting at Marquette University from 1996 to 2004. Dr. Akers is a certified public accountant, a certified fraud examiner, a certified internal auditor and a certified management accountant. Through his experience as an investment company trustee and his employment experience, Dr. Akers is experienced with financial, accounting, regulatory and investment matters.

Gary A. Drska. Mr. Drska has served as an Independent Trustee of the Trust since 2001. Mr. Drska previously served as an independent trustee of USA Mutuals from 2001 to June 2021. Mr. Drska previously served as a Pilot of Frontier/Midwest Airlines, Inc., an airline company, from 1986 to September 2021. Through his experience as an investment company trustee, Mr. Drska is experienced with financial, accounting, regulatory and investment matters.

Vincent P. Lyles. Mr. Lyles has served as an Independent Trustee of the Trust since 2022. Mr. Lyles has served as Executive Director of Milwaukee Succeeds since January 2023. He previously served as System Vice President of Community Relations at Advocate Aurora Health Care from 2019 to 2022. He served as an Independent Director of BMO Funds, Inc., an open-end investment company, from 2017 to 2022. Mr. Lyles is a board member and finance committee member of Badger Mutual Insurance Company and a Trustee and member of the Committee of Student Experience & Mission on the Board of Trustees at Marquette University. Mr. Lyles previously served as President and Chief Executive Officer of the Boys & Girls Club of Greater Milwaukee from 2012 to 2018, President of M&I Community Development Corporation from 2006 to 2011, and as a Director of Public Finance of Robert W. Baird & Co. from 1995 to 2006. He received his Juris Doctor degree from the University of Wisconsin-Madison Law School in 1987. Through his experience as an investment company trustee and his employment experience, Mr. Lyles is experienced with legal, financial, accounting, regulatory and investment matters.

Erik K. Olstein. Mr. Olstein has served as an Independent Trustee of the Trust since 2022. Mr. Olstein served as President and Chief Operating Officer from 2000 to 2020 and Vice President of Sales and Chief Operating Officer from 1995 to 2000 at Olstein Capital Management, L.P., an asset management firm he co-founded. During his time at Olstein Capital Management, L.P., Mr. Olstein was responsible for fiduciary oversight and management of The Olstein Funds, an open-end investment company, where he served as Trustee, Secretary and Assistant Treasurer from 1995 to 2018. Mr. Olstein currently serves as President and Trustee of the Board of Trustees of the Trinity-Pawling School and has previously held Board positions with the American Friends of the National Museum of the Royal Navy, National Maritime Historical Society and U.S. Naval Service Personal Education Assistance Fund. Through his experience as an investment company trustee and his employment experience, Mr. Olstein is experienced with financial, accounting, regulatory and investment matters.

Lisa Zúñiga Ramírez, CFA[®], FSA. Ms. Ramírez has served as an Independent Trustee of the Trust since 2022. Ms. Ramírez has served on the Board of Directors of Peoples Financial Services Corp., a publicly-traded bank holding company, since 2022. Ms. Ramírez served as Senior Portfolio Manager at Segall Bryant & Hamill, LLC, an asset management firm, from 2018 to 2020. She served as Partner and Senior Portfolio Manager from 2009 to 2018, Partner and Senior Equity Analyst from 2002 to 2009 and Equity Analyst from 1997 to 2002 at Denver Investments, LLC, an asset management firm that was acquired by Segall Bryant & Hamill, LLC in 2018. Ms. Ramírez currently serves as an Independent Director on the Bow River Capital Advisory Board, an asset management firm, and is a Director of the Denver Employees Retirement Plan. In addition, she serves on the boards of The Denver Foundation, NACD (National Association of Corporate Directors) Colorado Chapter, Latinas First Foundation and Vuela for Health. Ms. Ramírez is a CFA[®] charterholder (CFA[®] is a registered trademark owned by the CFA Institute) and holds the Fundamentals of Sustainability Accounting (FSA) credential from the Sustainability Accounting Standards Board. Through her employment experience, Ms. Ramírez is experienced with financial, accounting, ESG (environmental, social and governance), regulatory and investment matters.

Gregory M. Wesley. Mr. Wesley has served as an Independent Trustee of the Trust since 2022. Mr. Wesley has served as Senior Vice President of Strategic Alliances and Business Development at the Medical College of Wisconsin since 2016. Prior to his current role at the Medical College of Wisconsin, he was a Partner at MWH Law Group LLP, a law firm during 2016, and a Partner at Gonzalez, Saggio & Harlan LLP, a law firm from 2002 to 2016. Mr. Wesley serves on the Board of Directors of the Metropolitan Milwaukee Association of Commerce, MHS Health Wisconsin, Versiti, Inc., and the Greater Milwaukee Committee. He also serves on the Board of Trustees of the Johnson Foundation at Wingspread and the Greater Milwaukee Foundation. He previously sat on the Board of Trustees of the Medical College of Wisconsin from 2009 to 2016 and the Board of Directors of Park Bank Milwaukee from 2015 to 2020. Mr. Wesley received his Juris Doctor degree from the University of Wisconsin-Madison Law School in 1997. Through his sustained employment and board experience, Mr. Wesley is experienced with legal, financial, accounting, regulatory and investment matters.

John P. Buckel. Mr. Buckel has served as a Trustee of the Trust since 2023 and has served as President of the Trust since 2013. Mr. Buckel has served as a Vice President of Fund Services, a multi-line service provider to investment companies, since 2004. Through his experience as an investment company trustee and his employment experience, Mr. Buckel is experienced with financial, accounting, regulatory and investment matters.

Trustee Ownership of Fund Shares

As of December 31, 2023, no Trustee or officer of the Trust beneficially owned shares of the Fund or any other series of the Trust.

Furthermore, as of December 31, 2023, neither the Trustees who are not “interested” persons of the Fund, nor members of their immediate families, owned securities beneficially, or of record, in the Adviser, the Distributor or any of their affiliates. Accordingly, neither the Trustees who are not “interested” persons of the Fund nor members of their immediate families, have a direct or indirect interest, the value of which exceeds \$120,000, in the Adviser, the Distributor or any of their affiliates. In addition, during the two most recently completed calendar years, neither the Independent Trustees nor members of their immediate families have had a direct or indirect interest, the value of which exceeds \$120,000 in (i) the Adviser, the Distributor or any of their affiliates, or (ii) any transaction or relationship in which such entity, the Fund, any officer of the Trust, or any of their affiliates was a party.

Board Committees

Audit Committee. The Trust has an Audit Committee, which is composed of the Independent Trustees, Dr. Michael D. Akers, Mr. Gary A. Drska, Mr. Vincent P. Lyles, Mr. Erik K. Olstein, Ms. Lisa Zúñiga Ramírez and Mr. Gregory M. Wesley. The Audit Committee reviews financial statements and other audit-related matters for the Fund. The Audit Committee also holds discussions with management and with the Fund’s independent auditor concerning the scope of the audit and the auditor’s independence. Dr. Akers is designated as the Audit Committee chairman and serves as the Audit Committee’s “audit committee financial expert,” as stated in the annual reports relating to the series of the Trust. During the past fiscal year, the Audit Committee met two times with respect to the Fund.

Nominating Committee. The Trust has a Nominating Committee, which is composed of the Independent Trustees, Dr. Michael D. Akers, Mr. Gary A. Drska, Mr. Vincent P. Lyles, Mr. Erik K. Olstein, Ms. Lisa Zúñiga Ramírez and Mr. Gregory M. Wesley. The Nominating Committee is responsible for seeking and reviewing candidates for consideration as nominees for the position of trustee and meets only as necessary. As part of this process, the Nominating Committee considers criteria for selecting candidates sufficient to identify a diverse group of qualified individuals to serve as trustees.

The Nominating Committee will consider nominees recommended by shareholders for vacancies on the Board of Trustees. Recommendations for consideration by the Nominating Committee should be sent to the President of the Trust in writing together with the appropriate biographical information concerning each such proposed nominee, and such recommendation must comply with the notice provisions set forth in the Trust’s Nominating Committee Charter. In general, to comply with such procedures, such nominations, together with all required information, must be delivered to and received by the President of the Trust at the principal executive office of the Trust not later than 60 days prior to the shareholder meeting at which any such nominee would be voted on. Shareholder recommendations for nominations to the Board of Trustees will be accepted on an ongoing basis and such recommendations will be kept on file for consideration when there is a vacancy on the Board of Trustees. During the Fund’s past fiscal year, the Nominating Committee met twice.

Trustee Compensation

Independent Trustee fees are paid to the Trust by the Adviser. These fees are not paid by the Fund. The Independent Trustees receive from the Trust an annual retainer of \$100,000⁽¹⁾, \$4,500 for each regular Board meeting attended and \$1,000 for each special Board meeting attended, as well as reimbursement for expenses incurred in connection with attendance at Board meetings⁽²⁾. Members of the Audit Committee receive \$2,000 for each meeting of the Audit Committee attended. The chairman of the Audit Committee receives an annual retainer of \$5,000⁽³⁾. Interested Trustees do not receive any compensation for their service as Trustee. For the fiscal year ended November 30, 2023, the Trustees received the following compensation:

Name of Person/Position	Aggregate Compensation paid by the Adviser ⁽⁴⁾	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from the Fund and the Trust ⁽⁵⁾ Paid to Trustees
Dr. Michael D. Akers, Independent Trustee ⁽⁶⁾⁽⁷⁾	\$4,834	None	None	\$105,500
Gary A. Drska, Independent Trustee ⁽⁶⁾	\$4,628	None	None	\$100,500
Vincent P. Lyles, Independent Trustee ⁽⁶⁾	\$4,628	None	None	\$100,500
Erik K. Olstein, Independent Trustee ⁽⁶⁾	\$4,628	None	None	\$100,500
Lisa Zúñiga Ramírez, Independent Trustee ⁽⁶⁾	\$4,628	None	None	\$100,500
Gregory M. Wesley, Independent Trustee ⁽⁶⁾	\$4,628	None	None	\$100,500
John P. Buckel, Interested Trustee	None	None	None	None

⁽¹⁾ Prior to January 1, 2024, the Independent Trustees received an annual retainer of \$65,000.

⁽²⁾ Prior to January 1, 2023, the Independent Trustees received an annual retainer of \$58,000 per year, and \$4,500 for each regular Board meeting attended and \$1,000 for each special Board meeting attended.

⁽³⁾ Prior to January 1, 2023, the chairman of the Audit Committee received an annual retainer of \$2,500.

⁽⁴⁾ Trustees' fees and expenses are allocated among the Fund and any other series comprising the Trust.

⁽⁵⁾ There are currently thirty other series comprising the Trust.

⁽⁶⁾ Audit Committee member.

⁽⁷⁾ Audit Committee chairman.

Control Persons and Principal Shareholders

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of the Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of a company or acknowledges the existence of control. A control persons possesses the ability to control the outcome of matters submitted for shareholder vote by the Fund. As of March 1, 2024, no person was a control person of the Fund, and all Trustees and officers as a group owned beneficially (as the term is defined in Section 13(d) under the Securities and Exchange Act of 1934) less than 1% of the Fund. As of March 1, 2024, the following shareholders were considered to be principal shareholders of the Fund:

Name and Address	% Ownership	Type of Ownership	Parent Company	Jurisdiction
Charles Schwab & Co., Inc. Attn: Mutual Funds 211 Main Street San Francisco, CA 94104-1905	51.40%	Record	The Charles Schwab Corporation	DE
National Financial Services LLC 499 Washington Boulevard, 4 th Floor Jersey City, NJ 07310-2010	17.71%	Record	Fidelity Global Brokerage Group, Inc.	DE

Name and Address	% Ownership	Type of Ownership	Parent Company	Jurisdiction
Goldman Sachs Asset Management, L.P. 200 West Street New York, NY 10282	9.14%	Record	Goldman Sachs Asset Management, L.P.	NY
LPL Financial 75 State Street, 22nd Floor Boston, MA 02109	8.82%	Record	LPL Holdings, Inc.	CA
J.P. Morgan Chase Clearing, Corp. 3 Chase Metrotech Center, 7th Floor Brooklyn, NY 11245-0001	5.49%	Record	J.P. Morgan Securities LLC	NY

Investment Adviser

As stated in the Prospectus, investment advisory services are provided to the Fund by the Adviser, Convergence Investment Partners, LLC, pursuant to an investment advisory agreement (the “Advisory Agreement”). The Adviser is majority-owned by Nile Capital Group, LLC, a Delaware limited liability company. Nile Capital Group, LLC is a private equity firm specializing in providing capital and operational services to asset managers. The Adviser provided services to the Predecessor Fund under a different advisory agreement (the “Predecessor Advisory Agreement”).

After an initial period of two years, the Advisory Agreement will continue in effect from year to year, only if such continuance is specifically approved at least annually by: (i) the Board of Trustees or the vote of a majority of the Fund’s outstanding voting securities; and (ii) the vote of a majority of the Trustees of the Trust who are not parties to the Advisory Agreement nor interested persons thereof, cast in person (or in another manner permitted by the 1940 Act or pursuant to exemptive relief therefrom) at a meeting called for the purpose of voting on such approval. The Advisory Agreement is terminable without penalty by the Trust, on behalf of the Fund, upon 60 days’ written notice to the Adviser, when authorized by either: (i) a majority vote of the outstanding voting securities of the Fund; or (ii) by a vote of a majority of the Board of Trustees, or by the Adviser upon 60 days’ written notice to the Trust. The Advisory Agreement will automatically terminate in the event of its “assignment” (as defined under the 1940 Act). The Advisory Agreement provides that the Adviser under such agreement shall not be liable for any error of judgment or mistake of law or for any loss arising out of any investment or for any act or omission in the execution of portfolio transactions for the Fund, except for willful misfeasance, bad faith or negligence in the performance of its duties, or by reason of reckless disregard of its obligations and duties thereunder.

In consideration of the services provided by the Adviser pursuant to the Advisory Agreement, the Adviser is entitled to receive from the Fund a unitary management fee which is calculated daily and paid monthly, based on an annual rate equal to 0.95% of the Fund’s average daily net assets, as specified in the Prospectus. Under the Advisory Agreement, the Adviser has agreed to pay all expenses of the Fund except interest charges on any borrowings, dividends and other expenses on securities sold short, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, distribution fees and expenses paid by the Fund under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act, and the unitary management fee payable to the Adviser.

The table below sets forth, for the fiscal years ended November 30, 2023, 2022 and 2021, the advisory fees accrued by the Fund under the Advisory Agreement and, for the periods prior to February 18, 2022, the Predecessor Fund under the Predecessor Advisory Agreement, the amount of the advisory fees and Predecessor Fund operating expenses waived or recouped by the Adviser, and the total advisory fees paid by

the Fund or the Predecessor Fund to the Adviser under the Advisory Agreement or Predecessor Advisory Agreement, as applicable:

Fiscal Year Ended	Advisory Fee	Recoupment / (Waiver)	Advisory Fee after Recoupment / Waiver
November 30, 2023	\$239,937	\$0	\$239,937
November 30, 2022	\$241,647	\$(50,044)	\$191,603
November 30, 2021	\$287,135	\$(130,361)	\$156,774

The management fee paid to the Adviser under the Predecessor Advisory Agreement was not a unitary management fee.

Portfolio Managers

As stated in the Prospectus, Mr. David J. Abitz, CFA, and Mr. Justin Neberg, CFA (the “Portfolio Managers”), are primarily responsible for the day-to-day management of the Fund’s investment portfolio. The following provides information regarding other accounts managed by the Portfolio Managers as of November 30, 2023:

Category of Account	Total Number of Accounts Managed	Total Assets in Accounts Managed	Number of Accounts for which Advisory Fee is Based on Performance	Assets in Accounts for which Advisory Fee is Based on Performance
<u>David J. Abitz</u>				
Other Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	250	\$190 million	0	\$0
<u>Justin Neberg</u>				
Other Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	250	\$190 million	0	\$0

Material Conflicts of Interest

The Portfolio Managers’ management of “other accounts” may give rise to potential conflicts of interest in connection with their management of the Fund’s investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the Portfolio Managers could favor one account over another. Another potential conflict could include the Portfolio Managers’ knowledge about the size, timing and possible market impact of Fund trades, whereby the Portfolio Managers could use this information to the advantage of other accounts and to the disadvantage of the Fund. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

Portfolio Manager Compensation

As of the date of this SAI, the Adviser compensates the Portfolio Managers for their management of the Fund. The Portfolio Managers are compensated with a fixed salary. Additionally, Mr. Abitz and Mr. Neuberg maintain an equity interest in the Adviser.

Ownership of Securities in the Fund by the Portfolio Managers

As of December 31, 2023, the Portfolio Managers beneficially owned shares of the Fund as shown below:

Name of Portfolio Manager	Dollar Range of Equity Securities in the Fund
David J. Abitz	\$500,001 - \$1,000,000
Justin Neuberg	\$100,001 - \$500,000

Service Providers

Fund Administrator, Transfer Agent and Fund Accountant

Pursuant to a fund administration and servicing agreement (the “Administration Agreement”) between the Trust and Fund Services, 615 East Michigan Street, Milwaukee, Wisconsin, 53202, Fund Services acts as the Fund’s administrator. Fund Services provides certain administrative services to the Fund, including, among other responsibilities, coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Fund’s independent contractors and agents; preparing for signature by an officer of the Trust all of the documents required to be filed for compliance by the Trust and the Fund with applicable laws and regulations excluding those of the securities laws of various states; arranging for the computation of performance data, including NAV and yield; responding to shareholder inquiries; and arranging for the maintenance of books and records of the Fund, and providing, at its own expense, office facilities, equipment and personnel necessary to carry out its duties. In this capacity, Fund Services does not have any responsibility or authority for the management of the Fund, the determination of investment policy, or for any matter pertaining to the distribution of Shares.

Pursuant to the Administration Agreement, as compensation for its services, Fund Services receives from the Adviser a combined fee for fund administration and fund accounting services based on the Fund’s current average daily net assets. Fund Services is also entitled to be reimbursed by the Adviser for certain out-of-pocket expenses. In addition to its role as administrator, Fund Services also acts as fund accountant (“Fund Accountant”), transfer agent (“Transfer Agent”) and dividend disbursing agent under separate agreements with the Trust.

For the fiscal periods/years indicated below, the Adviser paid the following fees to Fund Services for fund administration and fund accounting services rendered to the Fund.

Administration Fees Paid by the Adviser During Fiscal Period/Year Ended November 30,	
2023	2022⁽¹⁾
\$45,000	\$37,500

⁽¹⁾ For the period from February 19, 2022 to November 30, 2022.

For the fiscal periods/years indicated below, the Predecessor Fund paid the following fees to Fund Services pursuant to a separate administration agreement under which Fund Services was compensated by the Predecessor Fund rather than the Adviser:

Administration Fees Paid by the Predecessor Fund During Fiscal Period/Year Ended November 30,	
<u>2022⁽¹⁾</u>	<u>2021</u>
\$30,532	\$103,271

⁽¹⁾ For the period from December 1, 2021 to February 18, 2022.

Custodian

The Custodian, an affiliate of Fund Services, is the custodian of the assets of the Fund pursuant to a custody agreement between the Custodian and the Trust, on behalf of the Fund, whereby the Custodian charges fees to the Adviser on a transactional basis plus out-of-pocket expenses. The Custodian has custody of all assets and securities of the Fund, delivers and receives payments for securities sold, receives and pays for securities purchased, collects income from investments and performs other duties, all as directed by the officers of the Trust. The Custodian’s address is 1555 North River Center Drive, Suite 302, Milwaukee, Wisconsin, 53212. The Custodian does not participate in decisions relating to the purchase and sale of securities by the Fund. The Custodian and its affiliates may participate in revenue sharing arrangements with the service providers of funds in which the Fund may invest.

Legal Counsel

Godfrey & Kahn, S.C., 833 East Michigan Street, Suite 1800, Milwaukee, Wisconsin 53202, serves as legal counsel to the Fund and the Independent Trustees.

Independent Registered Public Accounting Firm

Cohen & Company, Ltd. (“Cohen”), 342 North Water Street, Suite 830, Milwaukee, Wisconsin, 53202, serves as the independent registered public accounting firm for the Fund. Cohen audits and reports on the Fund’s annual financial statements, reviews certain regulatory reports and the Fund’s federal income tax returns, and performs other auditing and tax services for the Fund when engaged to do so.

Distribution and Servicing of Shares

The Trust and Foreside Fund Services, LLC (the “Distributor”) are parties to a distribution agreement (“Distribution Agreement”), whereby the Distributor acts as principal underwriter for the Fund and distributes Shares on a best efforts basis. Shares are continuously offered for sale by the Distributor only in Creation Units. The Distributor will not distribute Shares in amounts less than a Creation Unit and does not maintain a secondary market in Shares. The principal business address of the Distributor is Three Canal Plaza, Suite 100, Portland, Maine 04101.

Under the Distribution Agreement, the Distributor, as agent for the Trust, will review orders for the purchase and redemption of Creation Units, provided that any subscriptions and orders will not be binding on the Trust until accepted by the Trust. The Distributor is a broker-dealer registered under the 1934 Act and a member of FINRA.

The Distributor may also enter into agreements with securities dealers (“Soliciting Dealers”) who will solicit purchases of Creation Units of Shares. Such Soliciting Dealers may also be Authorized Participants (as discussed in “Procedures for Purchase of Creation Units” below) or DTC participants (as defined below).

The Distribution Agreement will continue for two years from its effective date and is renewable annually thereafter. The continuance of the Distribution Agreement must be specifically approved at least annually by the Board of Trustees or by vote of a majority of the Fund’s outstanding voting securities and, in either case,

by a majority of the Trustees who are not parties to the Distribution Agreement or “interested persons” (as defined in the 1940 Act) of any such party. The Distribution Agreement is terminable without penalty by the Trust on behalf of the Fund on 60 days’ written notice when authorized either by a majority vote of the outstanding voting securities of the Fund or by vote of a majority of the Trustees who are not “interested persons” (as defined in the 1940 Act). The Distribution Agreement is terminable without penalty by the Distributor upon 60 days’ written notice to the Trust. The Distribution Agreement will automatically terminate in the event of its “assignment” (as defined in the 1940 Act), or by the Distributor on 60 days’ written notice.

Intermediary Compensation. The Adviser and its affiliates, out of their own resources and not out of Fund assets (*i.e.*, without additional cost to the Fund or its shareholders), may pay certain broker dealers, banks and other financial intermediaries (“Intermediaries”) for certain activities related to the Fund, including participation in activities that are designed to make Intermediaries more knowledgeable about exchange traded products, including the Fund, or for other activities, such as marketing and educational training or support. These arrangements are not financed by the Fund and, thus, do not result in increased Fund expenses. They are not reflected in the fees and expenses listed in the fees and expenses sections of the Fund’s Prospectus and they do not change the price paid by investors for the purchase of Shares or the amount received by a shareholder as proceeds from the redemption of Shares.

Such compensation may be paid to Intermediaries that provide services to the Fund, including marketing and education support (such as through conferences, webinars and printed communications). The Adviser periodically assesses the advisability of continuing to make these payments. Payments to an Intermediary may be significant to the Intermediary, and amounts that Intermediaries pay to your adviser, broker or other investment professional, if any, may also be significant to such adviser, broker or investment professional. Because an Intermediary may make decisions about what investment options it will make available or recommend, and what services to provide in connection with various products, based on payments it receives or is eligible to receive, such payments create conflicts of interest between the Intermediary and its clients. For example, these financial incentives may cause the Intermediary to recommend the Fund over other investments. The same conflict of interest exists with respect to your financial adviser, broker or investment professional if he or she receives similar payments from his or her Intermediary firm.

Intermediary information is current only as of the date of this SAI. Please contact your adviser, broker, or other investment professional for more information regarding any payments his or her Intermediary firm may receive. Any payments made by the Adviser or its affiliates to an Intermediary may create the incentive for an Intermediary to encourage customers to buy Shares.

Portfolio Transactions and Brokerage

Pursuant to the Advisory Agreement, the Adviser determines which securities are to be purchased and sold by the Fund and which broker-dealers are eligible to execute the Fund’s portfolio transactions. Purchases and sales of securities in the over-the-counter market will generally be executed directly with a “market-maker” unless, in the opinion of the Adviser, a better price or execution can otherwise be obtained by using a broker for the transaction.

Purchases of portfolio securities for the Fund will be effected through broker-dealers (including banks) that specialize in the types of securities that the Fund will be holding, unless the Adviser believes that better executions are available elsewhere. Dealers usually act as principal for their own accounts. Purchases from dealers will include a spread between the bid and the asked price. If the execution and price offered by more than one dealer are comparable, the order may be allocated to a dealer that has provided research or other services as discussed below.

In placing portfolio transactions, the Adviser will use reasonable efforts to choose broker-dealers capable of providing the services necessary to obtain the most favorable price and execution available. The full range and quality of services available will be considered in making these determinations, such as the size of the order, the difficulty of execution, the operational facilities of the firm involved, the firm's risk in positioning a block of securities and other factors, will be considered in making these determinations. In those instances where it is reasonably determined that more than one broker-dealer can offer the services needed to obtain the most favorable price and execution available, consideration may be given to those broker-dealers that furnish or supply research and statistical information to the Adviser that it may lawfully and appropriately use in its investment advisory capacities, as well as provide other brokerage services in addition to execution services. The Adviser considers such information, which is in addition to and not in lieu of the services required to be performed by it under its Advisory Agreement with the Fund, to be useful in varying degrees, but of indeterminable value. Portfolio transactions may be placed with broker-dealers who sell shares of the Fund subject to rules adopted by FINRA and the SEC. Portfolio transactions may also be placed with broker-dealers in which the Adviser has invested on behalf of the Fund and/or client accounts.

While it is the Fund's general policy to first seek to obtain the most favorable price and execution available in selecting a broker-dealer to execute portfolio transactions for the Fund, weight is also given to the ability of a broker-dealer to furnish brokerage and research services to the Fund or to the Adviser, even if the specific services are not directly useful to the Fund and may be useful to the Adviser in advising other clients. In negotiating commissions with a broker or evaluating the spread to be paid to a dealer, the Fund may therefore pay a higher commission or spread than would be the case if no weight were given to the furnishing of these supplemental services, provided that the amount of such commission or spread has been determined in good faith by the Adviser to be reasonable in relation to the value of the brokerage and/or research services provided by such broker-dealer. The standard of reasonableness is to be measured in light of the Adviser's overall responsibilities to the Fund.

Investment decisions for the Fund are made independently from those of other client accounts. Nevertheless, it is possible that at times identical securities will be acceptable for both the Fund and one or more of such client accounts. In such event, the position of the Fund and such client account(s) in the same issuer may vary and the length of time that each may choose to hold its investment in the same issuer may likewise vary. However, to the extent any of these client accounts seek to acquire the same security as the Fund at the same time, the Fund may not be able to acquire as large a portion of such security as it desires, or it may have to pay a higher price or obtain a lower yield for such security. Similarly, the Fund may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time. If one or more of such client accounts simultaneously purchases or sells the same security that the Fund is purchasing or selling, each day's transactions in such security will be allocated between the Fund and all such client accounts in a manner deemed equitable by the Adviser, taking into account the respective sizes of the accounts and the amount being purchased or sold. It is recognized that in some cases this system could have a detrimental effect on the price or value of the security insofar as the Fund is concerned. In other cases, however, it is believed that the ability of the Fund to participate in volume transactions may produce better executions for the Fund. Notwithstanding the above, the Adviser may execute buy and sell orders for accounts and take action in performance of its duties with respect to any of its accounts that may differ from actions taken with respect to another account, so long as the Adviser shall, to the extent practicable, allocate investment opportunities to accounts, including the Fund, over a period of time on a fair and equitable basis and in accordance with applicable law.

When buying or selling securities, the Adviser may, although does not currently, execute trades for the Fund with broker-dealers that are affiliated with the Trust, the Adviser or their affiliates, and the Fund may pay commissions to such broker-dealers in accordance with procedures adopted by the Board. The Trust has adopted procedures to monitor and control such affiliated brokerage transactions, which are reported to and reviewed by the Board at least quarterly.

Brokers or dealers selected to execute the Fund’s portfolio transactions may include the Fund’s Authorized Participants or their affiliates. An Authorized Participant or its affiliates may be selected to execute the Fund’s portfolio transactions in conjunction with an all-cash creation unit order or an order including “cash-in-lieu”. As described below under “Purchase and Redemption of Shares in Creation Units—Creation Transaction Fee” and “—Redemption Transaction Fee,” the Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, even if the decision to not charge a variable fee could be viewed as benefiting the Authorized Participant or its affiliate selected to execute the Fund’s portfolio transactions in connection with such orders.

Brokerage Commissions

The Fund is required to identify any brokerage transactions during its most recent fiscal year that were directed to a broker because of research services provided, along with the amount of any such transactions and any related commissions paid by the Fund. The following table shows the amount of such transactions and related commission paid by the Fund for research services, for the fiscal year ended November 30, 2023:

Commissions	Principal Value
\$35,690	\$277,894,251

For the fiscal years indicated below, the Fund and the Predecessor Fund (for the periods prior to February 18, 2022) paid the following brokerage commissions:

Brokerage Commissions Paid During Fiscal Years Ended November 30,		
2023	2022	2021
\$35,690	\$24,181	\$34,912

Securities of “Regular Broker-Dealers”

The Fund is required to identify any securities of its “regular brokers and dealers” (as such term is defined in the 1940 Act) that it may hold at the close of its most recent fiscal year. “Regular brokers or dealers” of the Fund are the ten brokers or dealers that, during the most recent fiscal year (i) received the greatest dollar amounts of brokerage commissions from the Fund’s portfolio transactions; (ii) engaged as principal in the largest dollar amounts of portfolio transactions of the Fund; or (iii) sold the largest dollar amounts of the Shares. During the last fiscal year, the Fund held securities of Bank of New York Mellon Corp., the parent company of a regular broker or dealer of the Fund. The Fund held no investment in securities of this issuer as of November 30, 2023. As of the date of this SAI, the Fund does not hold any securities of “regular broker-dealers.”

Portfolio Turnover

Although the Fund generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (1) the lesser of purchases or sales of portfolio securities for the fiscal year by (2) the monthly average of the value of portfolio securities owned during the fiscal year. A 100% turnover rate would occur if all the securities in the Fund’s portfolio, with the exception of securities whose maturities at the time of acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of portfolio turnover (100% or more) generally leads to above-average transaction and brokerage commission costs and may generate capital gains, including short-term capital gains taxable to shareholders at ordinary income rates. To the extent that the Fund experiences an increase in brokerage commissions due to a higher portfolio turnover rate, the performance of the Fund could be negatively impacted by the increased expenses incurred by the

Fund. Furthermore, a high portfolio turnover may result in a greater number of taxable transactions.

For the fiscal years indicated below, the portfolio turnover rate for the Fund was as follows:

Portfolio Turnover	
During Fiscal Years Ended November 30,	
<u>2023</u>	<u>2022</u>
283.70%	244.44%

Code of Ethics

The Trust and the Adviser have each adopted a Code of Ethics under Rule 17j-1 of the 1940 Act. These Codes of Ethics permit, subject to certain conditions, personnel of the Adviser to invest in securities that may be purchased or held by the Fund. The Distributor relies on the principal underwriter's exception under Rule 17j-1(c)(3) of the 1940 Act from the requirement to adopt a code of ethics pursuant to Rule 17j-1 because the Distributor is not affiliated with the Trust or the Adviser, and no officer, director, or general partner of the Distributor serves as an officer or director of the Trust or the Adviser.

Proxy Voting Procedures

The Board of Trustees has adopted proxy voting policies and procedures ("Proxy Policies") on behalf of the Trust which has delegated to the Adviser, subject to the Board of Trustees' continuing oversight the responsibility for voting proxies. Notwithstanding this delegation of responsibilities, however, the Fund retains the right to vote proxies relating to its portfolio securities. The fundamental purpose of the Proxy Policies is to ensure that each vote will be in a manner that reflects the best interest of the Fund and its shareholders, taking into account the value of the Fund's investments.

In the event of a conflict between the interests of the Adviser and the Fund, the Proxy Policies provide that the conflict may be disclosed to the Board of Trustees or its delegate, who shall provide direction on how to vote the proxy. The Board of Trustees has delegated this authority to the Independent Trustees, and the proxy voting direction in such a case shall be determined by a majority of the Independent Trustees.

The Adviser's Proxy Voting Guidelines

To limit conflicts of interest, it is the Adviser's policy to vote shares primarily in conformity with recommendations made by Broadridge Proxy Policies and Insights, a third-party firm that provides data-driven guidelines (the "Guidelines") utilizing voting trends. In circumstances where a proxy voting proposal is not going to be voted according to the Guidelines and the Adviser receives such notification, the Adviser will generally vote with management. On occasion, the Adviser may determine not to vote a particular proxy. This may be done, for example where: (1) the cost of voting the proxy outweighs the potential benefit derived from voting; (2) a proxy is received with respect to securities that have been sold before the date of the shareholder meeting and are no longer held in a client account; (3) despite reasonable efforts, the Adviser receives proxy materials without sufficient time to reach an informed voting decision and/or vote the proxies; (4) the terms of the security or any related agreement or applicable law preclude the Adviser from voting; or (5) the terms of an agreement reserve voting authority to the client or another party. A copy of the Adviser's proxy voting procedures are available upon request.

The Fund's actual voting records relating to portfolio securities during the most recent 12-month period ended June 30th is available without charge, upon request, by calling toll-free, 877-677-9414 or by accessing the SEC's website at www.sec.gov.

Anti-Money Laundering Compliance Program

The Trust has established an Anti-Money Laundering Compliance Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the “USA PATRIOT Act”) and related anti-money laundering laws and regulations. To ensure compliance with these laws, the Trust’s Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program. Ms. Deanna B. Marotz has been designated as the Trust’s Anti-Money Laundering Compliance Officer.

Procedures to implement the Program include, but are not limited to: determining that the Distributor and the Transfer Agent have established proper anti-money laundering procedures and reporting suspicious and/or fraudulent activity.

Portfolio Holdings Information

The Trust’s Board of Trustees has adopted a policy regarding the disclosure of information about the Fund’s security holdings. The Fund’s entire portfolio holdings are publicly disseminated each day the Fund is open for business and may be available through financial reporting and news services, including publicly available internet web sites. In addition, the composition of the Deposit Securities is publicly disseminated daily prior to the opening of the Exchange via the facilities of the National Securities Clearing Corporation (“NSCC”).

Determination of Net Asset Value

The NAV of the Fund’s shares will fluctuate and is determined as of the close of trading on the New York Stock Exchange (“NYSE”) (generally 4:00 p.m., Eastern time) each business day. The NYSE annually announces the days on which it will not be open for trading. The most recent announcement indicates that the NYSE will not be open on the following days: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. However, the NYSE may close on days not included in that announcement. If the NYSE closes early, the Fund will calculate the NAV as of the close of trading on the NYSE on that day. If an emergency exists as permitted by the SEC, the NAV may be calculated at a different time.

The NAV per share is computed by dividing the value of the securities held by the Fund plus any cash or other assets (including interest and dividends accrued but not yet received) minus all liabilities (including accrued expenses) by the total number of shares in the Fund outstanding at such time.

$$\frac{\text{Net Assets}}{\text{Shares Outstanding}} = \text{Net Asset Value Per Share}$$

Generally, the Fund’s investments are valued at market value or, in the absence of a market value, at fair value as determined in good faith by the Adviser pursuant to the Adviser’s procedures subject to oversight by the Board of Trustees.

Each equity security owned by the Fund, including depositary receipts, that is traded on a national securities exchange, except for securities listed on the NASDAQ Stock Market LLC (“NASDAQ”), is valued at its last sale price on the exchange on which such security is traded, as of the close of business on the day the security is being valued or, lacking any reported sales, at the mean between the most recent bid and asked price. All equity securities that are not traded on a listed exchange are valued at the last sales price at the close of the OTC market. If a non-exchange listed security does not trade on a particular day, then the mean between the last quoted bid and asked price will be used as long as it continues to reflect the value of the security.

Securities that are traded on more than one exchange are valued using the price of the exchange that the Fund generally considers to be the principal exchange on which the security is traded. Fund securities listed on NASDAQ shall be valued using the NASDAQ Official Closing Price, which may not necessarily represent the last sales price. If there has been no sale on such exchange or on NASDAQ on such day, the security will be valued at the mean between the most recent quoted bid and asked prices at the close of the exchange on such day, or the security shall be valued at the latest sales price on the “composite market” for the day such security is being valued. The composite market is defined as a consolidation of the trade information provided by a national securities and foreign exchange and OTC markets as published by an approved independent pricing service (“Pricing Service”).

Money market funds, demand notes and repurchase agreements are valued at cost. If cost does not represent current market value the securities will be priced at fair value.

Debt securities, including short-term debt instruments having a maturity of 60 days or less, are valued at the mean in accordance with prices provided by a Pricing Service. Pricing Services may use various valuation methodologies such as the mean between the bid and the asked prices, matrix pricing method or other analytical pricing models as well as market transactions and dealer quotations. If a price is not available from a Pricing Service, the most recent quotation obtained from one or more broker-dealers known to follow the issue will be obtained. Pricing quotations will be valued at the mean between the bid and the offer. Fixed income securities purchased on a delayed-delivery basis are typically marked to market daily until settlement at the forward settlement date. Any discount or premium is accreted or amortized using the constant yield 2 method until maturity. In the absence of available quotations, the securities will be priced at fair value.

Exchange traded options are valued at the composite price, using the National Best Bid and Offer quotes (“NBBO”). NBBO consists of the highest bid price and lowest ask price across any of the exchanges on which an option is quoted, thus providing a view across the entire U.S. options marketplace. Specifically, composite pricing looks at the last trades on the exchanges where the options are traded. If there are no trades for the option on a given business day composite option pricing calculates the mean of the highest bid price and lowest ask price across the exchanges where the option is traded.

Pursuant to Rule 2a-5 under the 1940 Act, all other assets of the Fund are valued in such manner as the Adviser in good faith deems appropriate to reflect their fair value.

Book Entry Only System

The Depository Trust Company (“DTC”) acts as securities depository for Shares. Shares are represented by securities registered in the name of DTC or its nominee, Cede & Co., and deposited with, or on behalf of, DTC. Except in limited circumstances set forth below, certificates will not be issued for Shares.

DTC is a limited-purpose trust company that was created to hold securities of its participants (the “DTC Participants”) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the New York Stock Exchange (“NYSE”) and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers, and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the “Indirect Participants”).

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants, and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to in this SAI as “Beneficial Owners”) is shown on, and the

transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of Shares. The Trust recognizes DTC or its nominee as the record owner of all Shares for all purposes. Beneficial Owners of Shares are not entitled to have Shares registered in their names, and will not receive or be entitled to physical delivery of Share certificates. Each Beneficial Owner must rely on the procedures of DTC and any DTC Participant and/or Indirect Participant through which such Beneficial Owner holds its interests, to exercise any rights of a holder of Shares.

Conveyance of all notices, statements, and other communications to Beneficial Owners is effected as follows. DTC will make available to the Trust upon request and for a fee a listing of Shares held by each DTC Participant. The Trust shall obtain from each such DTC Participant the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement, or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements. Any such reimbursement shall be paid back to the Fund by deducting the same amount from the Adviser's unitary fee.

Share distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, shall credit immediately DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a "street name," and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in Shares, or for maintaining, supervising, or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may determine to discontinue providing its service with respect to the Fund at any time by giving reasonable notice to the Fund and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Fund shall take action either to find a replacement for DTC to perform its functions at a comparable cost or, if such replacement is unavailable, to issue and deliver printed certificates representing ownership of Shares, unless the Trust makes other arrangements with respect thereto satisfactory to the Exchange.

Purchase and Redemption of Shares in Creation Units

The Trust issues and sells Shares only in Creation Units on a continuous basis through the Distributor, without a sales load (but subject to transaction fees, if applicable), at their NAV per share next determined after receipt of an order, on any Business Day, in proper form pursuant to the terms of the Authorized Participant Agreement ("Participant Agreement"). The NAV of Shares is calculated each business day as of the scheduled close of regular trading on the NYSE, generally 4:00 p.m., Eastern Time. The Fund will not issue fractional Creation Units. A "Business Day" is any day on which the NYSE is open for business.

Fund Deposit

The consideration for purchase of a Creation Unit of the Fund generally consists of the in-kind deposit of the Deposit Securities and the Cash Component, computed as described below. Notwithstanding the foregoing, the Trust reserves the right to permit or require the substitution of a “cash in lieu” amount (“Deposit Cash”) to be added to the Cash Component to replace any or all of the Deposit Securities. When accepting purchases of Creation Units for all or a portion of Deposit Cash, the Fund may incur additional costs associated with the acquisition of Deposit Securities that would otherwise be provided by an in-kind purchaser. Pursuant to Rule 6c-11 of the 1940 Act, the Fund may utilize baskets that are not representative of the Fund’s portfolio referred to as custom baskets.

Together, the Deposit Securities or Deposit Cash, as applicable, and the Cash Component constitute the “Fund Deposit,” which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The “Cash Component” is an amount equal to the difference between the NAV of Shares (per Creation Unit) and the value of the Deposit Securities or Deposit Cash, as applicable. If the Cash Component is a positive number (*i.e.*, the NAV per Creation Unit exceeds the value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such positive amount. If the Cash Component is a negative number (*i.e.*, the NAV per Creation Unit is less than the value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such negative amount and the creator will be entitled to receive cash in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the value of the Deposit Securities or Deposit Cash, as applicable. Computation of the Cash Component excludes any stamp duty or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities, if applicable, which shall be the sole responsibility of the Authorized Participant (as defined below).

The Fund, through NSCC, makes available on each Business Day, prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern Time), the list of the names and the required number of Shares of each Deposit Security or the required amount of Deposit Cash, as applicable, to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund. Such Fund Deposit is subject to any applicable adjustments as described below, to effect purchases of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities or the required amount of Deposit Cash, as applicable, is made available.

The identity and number of Shares of the Deposit Securities or the amount of Deposit Cash, as applicable, required for the Fund Deposit for the Fund changes from time to time.

The Trust reserves the right to permit or require the substitution of Deposit Cash to replace any Deposit Security, which shall be added to the Cash Component, including, without limitation, in situations where the Deposit Security: (i) may not be available in sufficient quantity for delivery; (ii) may not be eligible for transfer through the systems of DTC for corporate securities and municipal securities; (iii) may not be eligible for trading by an Authorized Participant (as defined below) or the investor for which it is acting; (iv) would be restricted under the securities laws or where the delivery of the Deposit Security to the Authorized Participant would result in the disposition of the Deposit Security by the Authorized Participant becoming restricted under the securities laws; or (v) in certain other situations (collectively, “custom orders”).

Procedures for Purchase of Creation Units

To be eligible to place orders with the Transfer Agent to purchase a Creation Unit of the Fund, an entity must be a member or participant of a clearing agency registered with the SEC and must execute a Participant Agreement that has been agreed to by the Distributor (defined below), and that has been accepted by the Fund’s transfer agent, with respect to purchases and redemptions of Creation Units. Each Authorized Participant will agree, pursuant to the terms of a Participant Agreement, on behalf of itself or any investor on whose behalf it will act, to certain conditions, including that it will pay to the Trust, an amount of cash

sufficient to pay the Cash Component together with the creation transaction fee (described below), if applicable, and any other applicable fees and taxes.

All orders to purchase Shares directly from the Fund must be placed for one or more Creation Units and in the manner and by the time set forth in the Participant Agreement and/or applicable order form. With respect to the Fund, the order cut-off time for orders to purchase Creation Units is 3:00 p.m. Eastern time, which time may be modified by the Fund from time-to-time by amendment to the Participant Agreement and/or applicable order form. The date on which an order to purchase Creation Units (or an order to redeem Creation Units, as set forth below) is received and accepted is referred to as the “Order Placement Date.”

An Authorized Participant may require an investor to make certain representations or enter into agreements with respect to the order (*e.g.*, to provide for payments of cash, when required). Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to purchase Shares directly from the Fund in Creation Units must be placed by the investor’s broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such Authorized Participants may have international capabilities.

On days when the Exchange closes earlier than normal, the Fund may require orders to create Creation Units to be placed earlier in the day. In addition, if a market or markets on which the Fund’s investments are primarily traded is closed, the Fund will also generally not accept orders on such day(s). Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Transfer Agent pursuant to procedures set forth in the Participant Agreement and in accordance with the applicable order form. On behalf of the Fund, the Transfer Agent will notify the Custodian of such order. The Custodian will then provide such information to the appropriate local sub-custodian(s). Those placing orders through an Authorized Participant should allow sufficient time to permit proper submission of the purchase order to the Transfer Agent by the cut-off time on such Business Day. Economic or market disruptions or changes, or telephone or other communication failure may impede the ability to reach the Distributor or an Authorized Participant.

Fund Deposits must be delivered by an Authorized Participant through the Federal Reserve System (for cash) or through DTC (for corporate securities), through a sub-custody agent (for foreign securities) and/or through such other arrangements allowed by the Trust or its agents. With respect to foreign Deposit Securities, the Custodian shall cause the sub-custodian of the Fund to maintain an account into which the Authorized Participant shall deliver, on behalf of itself or the party on whose behalf it is acting, such Deposit Securities (or Deposit Cash for all or a part of such securities, as permitted or required), with any appropriate adjustments as advised by the Trust. Foreign Deposit Securities must be delivered to an account maintained at the applicable local sub-custodian. A Fund Deposit transfer must be ordered by the Authorized Participant in a timely fashion to ensure the delivery of the requisite number of Deposit Securities or Deposit Cash, as applicable, to the account of the Fund or its agents by no later than 12:00 p.m. Eastern Time (or such other time as specified by the Trust) on the Settlement Date. If the Fund or its agents do not receive all of the Deposit Securities, or the required Deposit Cash in lieu thereof, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. The “Settlement Date” for the Fund is generally the second Business Day after the Order Placement Date. All questions as to the number of Deposit Securities or Deposit Cash to be delivered, as applicable, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities or cash, as applicable, will be determined by the Trust, whose determination shall be final and binding. The amount of cash represented by the Cash Component must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner to be received by the Custodian no later than the

Settlement Date. If the Cash Component and the Deposit Securities or Deposit Cash, as applicable, are not received by the Custodian in a timely manner by the Settlement Date, the creation order may be cancelled. Upon written notice to the Transfer Agent, such canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then current NAV of the Fund.

The order shall be deemed to be received on the Business Day on which the order is placed provided that the order is placed in proper form prior to the applicable cut-off time and the federal funds in the appropriate amount are deposited with the Custodian on the Settlement Date. If the order is not placed in proper form as required, or federal funds in the appropriate amount are not received on the Settlement Date, then the order may be deemed to be rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. A creation request is in “proper form” if all procedures set forth in the Participant Agreement, order form and this SAI are properly followed.

Issuance of a Creation Unit

Except as provided in this SAI, Creation Units will not be issued until the transfer of good title to the Trust of the Deposit Securities or payment of Deposit Cash, as applicable, and the payment of the Cash Component have been completed. When the sub-custodian has confirmed to the Custodian that the required Deposit Securities (or the cash value thereof) have been delivered to the account of the relevant sub-custodian or sub-custodians, the Transfer Agent and the Adviser shall be notified of such delivery, and the Trust will issue and cause the delivery of the Creation Units. The delivery of Creation Units so created generally will occur no later than the second Business Day following the day on which the purchase order is deemed received by the Transfer Agent. The Authorized Participant shall be liable to the Fund for losses, if any, resulting from unsettled orders.

Creation Units may be purchased in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) an additional amount of cash equal to a percentage of the value as set forth in the Participant Agreement, of the undelivered Deposit Securities (the “Additional Cash Deposit”), which shall be maintained in a separate non-interest bearing collateral account. The Authorized Participant must deposit with the Custodian the Additional Cash Deposit, as applicable, by 12:00 p.m. Eastern Time (or such other time as specified by the Trust) on the Settlement Date. If the Fund or its agents do not receive the Additional Cash Deposit in the appropriate amount, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to the applicable percentage, as set forth in the Participant Agreement, of the daily market value of the missing Deposit Securities. The Participant Agreement will permit the Trust to buy the missing Deposit Securities at any time. Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the value of such Deposit Securities on the day the purchase order was deemed received by the Transfer Agent plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust. In addition, a transaction fee, as described below under “Creation Transaction Fee,” may be charged. The delivery of Creation Units so created generally will occur no later than the Settlement Date.

Acceptance of Orders of Creation Units

The Trust reserves the right to reject an order for Creation Units transmitted to it by the Transfer Agent with respect to the Fund including, without limitation, if (a) the order is not in proper form; (b) the Deposit

Securities or Deposit Cash, as applicable, delivered by the Participant are not as disseminated through the facilities of the NSCC for that date by the Custodian; (c) the investor(s), upon obtaining Shares ordered, would own 80% or more of the currently outstanding Shares of the Fund; (d) the acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (e) the acceptance or receipt of the order for a Creation Unit would, in the opinion of counsel to the Trust, be unlawful; or (f) in the event that circumstances outside the control of the Trust, the Custodian, the Transfer Agent and/or the Adviser make it for all practical purposes not feasible to process orders for Creation Units. Notwithstanding the Fund's ability to reject an order for creation units, the Fund will only do so in a manner consistent with the Commission's position, as expressed in Rule 6c-11, including the ability of the Fund to suspend orders only in limited times and extraordinary circumstances. Additionally, a suspension of creation units by the Fund will not impair the arbitrage mechanism for investors.

Examples of such circumstances include acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Distributor, the Custodian, a sub-custodian, the Transfer Agent, DTC, NSCC, Federal Reserve System, or any other participant in the creation process, and other extraordinary events. The Transfer Agent shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit of its rejection of the order of such person. The Trust, the Transfer Agent, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall either of them incur any liability for the failure to give any such notification. The Trust, the Transfer Agent, the Custodian and the Distributor shall not be liable for the rejection of any purchase order for Creation Units.

All questions as to the number of Shares of each security in the Deposit Securities and the validity form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust's determination shall be final and binding.

Creation Transaction Fee

A fixed purchase (*i.e.*, creation) transaction fee, payable to the Custodian, may be imposed for the transfer and other transaction costs associated with the purchase of Creation Units ("Creation Order Costs"). The standard fixed creation transaction fee for the Fund is \$300, regardless of the number of Creation Units created in the transaction. The Fund may adjust the standard fixed creation transaction fee from time to time. The fixed creation fee may be waived on certain orders if the Custodian has determined to waive some or all of the Creation Order Costs associated with the order or another party, such as the Adviser, has agreed to pay such fee.

In addition, a variable fee, payable to the Fund, of up to a maximum percentage of 2% of the value of the Creation Units subject to the transaction may be imposed for cash purchases, non-standard orders, or partial cash purchases of Creation Units. The variable charge is primarily designed to cover additional costs (*e.g.*, brokerage, taxes) involved with buying the securities with cash. The Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, *e.g.*, for creation orders that facilitate the rebalance of the Fund's portfolio in a more tax efficient manner than could be achieved without such order.

Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Fund to their account or on their order.

Risks of Purchasing Creation Units

There are certain legal risks unique to investors purchasing Creation Units directly from the Fund. Because Shares may be issued on an ongoing basis, a “distribution” of Shares could be occurring at any time. Certain activities that a shareholder performs as a dealer could, depending on the circumstances, result in the shareholder being deemed a participant in the distribution in a manner that could render the shareholder a statutory underwriter and subject to the prospectus delivery and liability provisions of the Securities Act. For example, a shareholder could be deemed a statutory underwriter if it purchases Creation Units from the Fund, breaks them down into the constituent Shares, and sells those Shares directly to customers, or if a shareholder chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary-market demand for Shares. Whether a person is an underwriter depends upon all of the facts and circumstances pertaining to that person’s activities, and the examples mentioned here should not be considered a complete description of all the activities that could cause you to be deemed an underwriter.

Dealers who are not “underwriters” but are participating in a distribution (as opposed to engaging in ordinary secondary-market transactions), and thus dealing with Shares as part of an “unsold allotment” within the meaning of Section 4(a)(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act.

Redemption

Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Transfer Agent and only on a Business Day. EXCEPT UPON LIQUIDATION OF THE FUND, THE TRUST WILL NOT REDEEM SHARES IN AMOUNTS LESS THAN CREATION UNITS. Investors must accumulate enough Shares in the secondary market to constitute a Creation Unit to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur brokerage and other costs in connection with assembling a sufficient number of Shares to constitute a redeemable Creation Unit.

With respect to the Fund, the Custodian, through the NSCC, makes available prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern Time) on each Business Day, the list of the names and Share quantities of the Fund’s portfolio securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as defined below) on that day (“Fund Securities”). Fund Securities received on redemption may not be identical to Deposit Securities.

Redemption proceeds for a Creation Unit are paid either in-kind or in cash, or combination thereof, as determined by the Trust. With respect to in-kind redemptions of the Fund, redemption proceeds for a Creation Unit will consist of Fund Securities—as announced by the Custodian on the Business Day of the request for redemption received in proper form plus cash in an amount equal to the difference between the NAV of Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the “Cash Redemption Amount”), less a fixed redemption transaction fee, as applicable, as set forth below. If the Fund Securities have a value greater than the NAV of Shares, a compensating cash payment equal to the differential is required to be made by or through an Authorized Participant by the redeeming shareholder. Notwithstanding the foregoing, at the Trust’s discretion, an Authorized Participant may receive the corresponding cash value of the securities in lieu of the in-kind securities value representing one or more Fund Securities.

Redemption Transaction Fee

A fixed redemption transaction fee, payable to the Custodian, may be imposed for the transfer and other transaction costs associated with the redemption of Creation Units (“Redemption Order Costs”). The standard fixed redemption transaction fee for the Fund is \$300, regardless of the number of Creation Units redeemed in the transaction. The Fund may adjust the redemption transaction fee from time to time. The

fixed redemption fee may be waived on certain orders if the Fund's custodian has determined to waive some or all of the Redemption Order Costs associated with the order or another party, such as the Adviser, has agreed to pay such fee.

In addition, a variable fee, payable to the Fund, of up to a maximum percentage of 2% of the value of the Creation Units subject to the transaction may be imposed for cash redemptions, non-standard orders, or partial cash redemptions (when cash redemptions are available) of Creation Units. The variable charge is primarily designed to cover additional costs (*e.g.*, brokerage, taxes) involved with selling portfolio securities to satisfy a cash redemption. The Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, *e.g.*, for redemption orders that facilitate the rebalance of the Fund's portfolio in a more tax efficient manner than could be achieved without such order.

Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Fund to their account or on their order.

Procedures for Redemption of Creation Units

Orders to redeem Creation Units of the Fund must be submitted in proper form to the Transfer Agent no later than the order cut-off time designated by the Fund on any business day. A redemption request is considered to be in "proper form" if (i) an Authorized Participant has transferred or caused to be transferred to the Trust's Transfer Agent the Creation Unit(s) being redeemed through the book-entry system of DTC so as to be effective by the time as set forth in the Participant Agreement and (ii) a request in form satisfactory to the Trust is received by the Transfer Agent from the Authorized Participant on behalf of itself or another redeeming investor within the time periods specified in the Participant Agreement. If the Transfer Agent does not receive the investor's Shares through DTC's facilities by the times and pursuant to the other terms and conditions set forth in the Participant Agreement, the redemption request shall be rejected.

The Authorized Participant must transmit the request for redemption, in the form required by the Trust, to the Transfer Agent in accordance with procedures set forth in the Authorized Participant Agreement. Investors should be aware that their particular broker may not have executed an Authorized Participant Agreement, and that, therefore, requests to redeem Creation Units may have to be placed by the investor's broker through an Authorized Participant who has executed an Authorized Participant Agreement. Investors making a redemption request should be aware that such request must be in the form specified by such Authorized Participant. Investors making a request to redeem Creation Units should allow sufficient time to permit proper submission of the request by an Authorized Participant and transfer of the Shares to the Trust's Transfer Agent; such investors should allow for the additional time that may be required to effect redemptions through their banks, brokers or other financial intermediaries if such intermediaries are not Authorized Participants.

Additional Redemption Procedures

In connection with taking delivery of Shares of Fund Securities upon redemption of Creation Units, a redeeming shareholder or Authorized Participant acting on behalf of such shareholder must maintain appropriate custody arrangements with a qualified broker-dealer, bank, or other custody providers in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered. Deliveries of redemption proceeds generally will generally be made within two business days of the trade date.

The Trust may in its discretion exercise its option to redeem such Shares in cash, and the redeeming investor will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash

payment equal to the NAV of its Shares based on the NAV of Shares of the Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee, if applicable, and additional charge for requested cash redemptions specified above, to offset the Trust's brokerage and other transaction costs associated with the disposition of Fund Securities). The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities but does not differ in NAV.

Redemptions of Shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserve the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of Creation Units may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming investor of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment. Further, an Authorized Participant that is not a "qualified institutional buyer," ("QIB") as such term is defined under Rule 144A of the Securities Act, will not be able to receive Fund Securities that are restricted securities eligible for resale under Rule 144A. An Authorized Participant may be required by the Trust to provide a written confirmation with respect to QIB status to receive Fund Securities.

Because the portfolio securities of the Fund may trade on other exchanges on days that the Exchange is closed or are otherwise not Business Days for the Fund, shareholders may not be able to redeem their Shares, or to purchase or sell Shares on the Exchange, on days when the NAV of the Fund could be significantly affected by events in the relevant foreign markets.

The right of redemption may be suspended or the date of payment postponed with respect to the Fund (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of Shares or determination of the NAV of the Shares is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

Federal Income Tax Matters

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you.

The following is only a summary of certain U.S. federal income tax considerations generally affecting the Fund and its shareholders that supplements the discussion in the Prospectus. No attempt is made to present a comprehensive explanation of the federal, state, local or foreign tax treatment of the Fund or its shareholders, and the discussion here and in the Prospectus is not intended to be a substitute for careful tax planning.

The following general discussion of certain U.S. federal income tax consequences is based on provisions of the Code and the regulations issued thereunder as in effect on the date of this SAI. New legislation, as well as administrative changes or court decisions, may significantly change the conclusions expressed herein, and may have a retroactive effect with respect to the transactions contemplated herein.

Shareholders are urged to consult their own tax advisors regarding the application of the provisions of tax law described in this SAI in light of the particular tax situations of the shareholders and regarding specific questions as to federal, state, foreign or local taxes.

Taxation of the Fund. The Fund will elect and intends to qualify each year to be treated as a RIC under the Code. As such, the Fund should not be subject to federal income taxes on its net investment income and capital gains, if any, to the extent that it timely distributes such income and capital gains to its shareholders. Generally, to qualify for treatment as a RIC, the Fund must distribute in each taxable year at least 90% of its “investment company taxable income” for the taxable year, which includes, among other items, dividends, interest, net short-term capital gain and net foreign currency gain, less expenses, as well as 90% of its net tax-exempt interest income, if any (the “Distribution Requirement”) and must meet several additional requirements. Among these requirements are the following: (i) at least 90% of the Fund’s gross income each taxable year must be derived from dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies or other income derived with respect to its business of investing in such stock, securities or foreign currencies and net income derived from interests in qualified publicly traded partnerships (the “Qualifying Income Requirement”); and (ii) at the end of each quarter of the Fund’s taxable year, the Fund’s assets must be diversified so that (a) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, securities of other RICs, and other securities, with such other securities limited, in respect to any one issuer, including the equity securities of a qualified publicly traded partnership, to an amount not greater in value than 5% of the value of the Fund’s total assets and to not more than 10% of the outstanding voting securities of such issuer; and (b) not more than 25% of the value of its total assets is invested in the securities (other than U.S. government securities or securities of other RICs) of any one issuer, the securities (other than securities of other RICs) of two or more issuers which the Fund controls and which are engaged in the same, similar, or related trades or businesses, or the securities of one or more qualified publicly traded partnerships (the “Diversification Requirement”).

To the extent the Fund makes investments that may generate income that is not qualifying income, including certain derivatives, the Fund will seek to restrict the resulting income from such investments so that the Fund’s non-qualifying income does not exceed 10% of its gross income.

Although the Fund intends to distribute substantially all of its net investment income and may distribute its capital gains for any taxable year, the Fund will be subject to federal income taxation to the extent any such income or gains are not distributed. The Fund is treated as a separate corporation for federal income tax purposes. The Fund therefore is considered a separate entity in determining its treatment under the rules for RICs described herein. The requirements (other than certain organizational requirements) for qualifying RIC status are determined at the Fund level rather than at the Trust level.

If the Fund fails to satisfy the Qualifying Income Requirement or the Diversification Requirement in any taxable year, the Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain de minimis failures of the Diversification Requirement where the Fund corrects the failure within a specified period of time. To be eligible for the relief provisions with respect to a failure to meet the Diversification Requirement, the Fund may be required to dispose of certain assets. If these relief provisions were not available to the Fund and it were to fail to qualify for treatment as a RIC for a taxable year, all of its taxable income would be subject to tax at regular corporate rates without any deduction for distributions to shareholders, and its distributions (including capital gains distributions) generally would be taxable to the shareholders of the Fund as ordinary income dividends, subject to the dividends received deduction for corporate shareholders and the lower tax rates on qualified dividend income received by non-corporate shareholders, subject to certain limitations. To requalify for treatment as a RIC in a subsequent taxable year, the Fund would be required to satisfy the RIC qualification requirements for that year and to distribute any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. If the Fund failed to qualify as a RIC for a period greater than two taxable years, it would generally be required to pay the Fund-level tax on certain net built in gains recognized with respect to certain of its assets upon a disposition of such assets within five years of qualifying as a RIC in a subsequent year.

The Board reserves the right not to maintain the qualification of the Fund for treatment as a RIC if it determines such course of action to be beneficial to shareholders. If the Fund determines that it will not qualify as a RIC, the Fund will establish procedures to reflect the anticipated tax liability in the Fund's NAV.

The Fund, if eligible, may elect to treat part or all of any "qualified late year loss" as if it had been incurred in the succeeding taxable year in determining the Fund's taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such "qualified late year loss" as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year. A "qualified late year loss" generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year, subject to special rules in the event the Fund makes an election under Section 4982(e)(4) of the Code (commonly referred to as "post-October losses") and certain other late-year losses.

Capital losses in excess of capital gains ("net capital losses") are not permitted to be deducted against a RIC's net investment income. Instead, for U.S. federal income tax purposes, potentially subject to certain limitations, the Fund may carry a net capital loss from any taxable year forward indefinitely to offset its capital gains, if any, in years following the year of the loss. To the extent subsequent capital gains are offset by such losses, they will not result in U.S. federal income tax liability to the Fund and may not be distributed as capital gains to its shareholders. Generally, the Fund may not carry forward any losses other than net capital losses. The carryover of capital losses may be limited under the general loss limitation rules if the Fund experiences an ownership change as defined in the Code. At November 30, 2023, the Fund has short-term capital loss carryovers of \$1,454,394.

The Fund will be subject to a nondeductible 4% federal excise tax on certain undistributed income if it does not distribute to its shareholders in each calendar year an amount at least equal to 98% of its ordinary income for the calendar year plus 98.2% of its capital gain net income for either the one-year period ending on October 31 of that year, or if the Fund makes an election under Section 4982(e)(4) of the Code, the Fund's fiscal year, subject to an increase for any shortfall in the prior year's distribution. The Fund intends to declare and distribute dividends and distributions in the amounts and at the times necessary to avoid the application of the excise tax, but can make no assurances that all such tax liability will be eliminated.

If the Fund meets the Distribution Requirement but retains some or all of its income or gains, it will be subject to federal income tax at regular corporate rates to the extent any such income or gains are not distributed. The Fund may elect to designate certain amounts retained as undistributed net capital gain as deemed distributions in a notice to its shareholders, who (i) will be required to include in income for U.S. federal income tax purposes, as long-term capital gain, their proportionate shares of the undistributed amount so designated, (ii) will be entitled to credit their proportionate shares of the income tax paid by the Fund on that undistributed amount against their federal income tax liabilities and to claim refunds to the extent such credits exceed their tax liabilities, and (iii) will be entitled to increase their tax basis, for federal income tax purposes, in their Shares by an amount equal to the excess of the amount of undistributed net capital gain included in their respective income over their respective income tax credits.

Taxation of Shareholders – Distributions. The Fund intends to distribute annually to its shareholders substantially all of its investment company taxable income (computed without regard to the deduction for dividends paid), its net tax-exempt income, if any, and any net capital gain (net recognized long-term capital gains in excess of net recognized short-term capital losses taking into account any capital loss carryforwards). The distribution of investment company taxable income (as so computed) and net realized capital gain will be taxable to Fund shareholders regardless of whether the shareholder receives these distributions in cash or reinvests them in additional Shares.

The Fund (or your broker) will report to shareholders annually the amounts of dividends paid from ordinary income, the amount of distributions of net capital gain, the portion of dividends which may qualify for the dividends received deduction for corporate shareholders, and the portion of dividends which may qualify for treatment as qualified dividend income, which is taxable to non-corporate shareholders at long-term capital gain rates.

Distributions from the Fund's net capital gain will be taxable to shareholders at long-term capital gains rates, regardless of how long shareholders have held their Shares.

Qualified dividend income includes, in general, subject to certain holding period and other requirements, dividend income from taxable domestic corporations and certain "qualified foreign corporations." Subject to certain limitations, "qualified foreign corporations" include those incorporated in possessions of the United States, those incorporated in certain countries with comprehensive tax treaties with the United States, and other foreign corporations if the stock with respect to which the dividends are paid is readily tradable on an established securities market in the United States. Dividends received by the Fund from an ETF or an underlying fund taxable as a RIC or a REIT may be treated as qualified dividend income generally only to the extent so reported by such ETF, underlying fund or REIT. If 95% or more of the Fund's gross income (calculated without taking into account net capital gain derived from sales or other dispositions of stock or securities) consists of qualified dividend income, the Fund may report all distributions of such income as qualified dividend income.

Fund dividends will not be treated as qualified dividend income if the Fund does not meet holding period and other requirements with respect to dividend paying stocks in its portfolio, or the shareholder does not meet holding period and other requirements with respect to the Shares on which the dividends were paid. Distributions by the Fund of its net short-term capital gains will be taxable as ordinary income. Distributions from the Fund's net capital gain will be taxable to shareholders at long-term capital gains rates, regardless of how long shareholders have held their Shares. Distributions may be subject to state and local taxes.

In the case of corporate shareholders, certain dividends received by the Fund from U.S. corporations (generally, dividends received by the Fund in respect of any share of stock (1) with a tax holding period of at least 46 days during the 91-day period beginning on the date that is 45 days before the date on which the stock becomes ex-dividend as to that dividend and (2) that is held in an unleveraged position) and distributed and appropriately so reported by the Fund may be eligible for the 50% dividends-received deduction. Certain preferred stock must have a holding period of at least 91 days during the 181-day period beginning on the date that is 90 days before the date on which the stock becomes ex-dividend as to that dividend to be eligible. Capital gain dividends distributed to the Fund from other RICs are not eligible for the dividends-received deduction. To qualify for the deduction, corporate shareholders must meet the minimum holding period requirement stated above with respect to their Shares, taking into account any holding period reductions from certain hedging or other transactions or positions that diminish their risk of loss with respect to their Shares, and, if they borrow to acquire or otherwise incur debt attributable to Shares, they may be denied a portion of the dividends-received deduction with respect to those Shares.

Although dividends generally will be treated as distributed when paid, any dividend declared by the Fund in October, November or December and payable to shareholders of record in such a month that is paid during the following January will be treated for U.S. federal income tax purposes as received by shareholders on December 31 of the calendar year in which it was declared.

In addition to the federal income tax, certain individuals, trusts and estates may be subject to a Net Investment Income ("NII") tax of 3.8%. The NII tax is imposed on the lesser of: (i) a taxpayer's investment income, net of deductions properly allocable to such income; or (ii) the amount by which such taxpayer's

modified adjusted gross income exceeds certain thresholds (\$250,000 for married individuals filing jointly, \$200,000 for unmarried individuals and \$125,000 for married individuals filing separately). The Fund's distributions are includable in a shareholder's investment income for purposes of this NII tax. In addition, any capital gain realized by a shareholder upon a sale or redemption of Fund shares is includable in such shareholder's investment income for purposes of this NII tax.

Shareholders who have not held Shares for a full year should be aware that the Fund may report and distribute, as ordinary dividends or capital gain dividends, a percentage of income that is not equal to the percentage of the Fund's ordinary income or net capital gain, respectively, actually earned during the applicable shareholder's period of investment in the Fund. A taxable shareholder may wish to avoid investing in the Fund shortly before a dividend or other distribution, because the distribution will generally be taxable even though it may economically represent a return of a portion of the shareholder's investment.

To the extent that the Fund makes a distribution of income received by the Fund in lieu of dividends (a "substitute payment") with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If the Fund's distributions exceed its earnings and profits, all or a portion of the distributions made for a taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution will generally not be taxable, but will reduce each shareholder's cost basis in the Fund and result in a higher capital gain or lower capital loss when the Shares on which the distribution was received are sold. After a shareholder's basis in the Shares has been reduced to zero, distributions in excess of earnings and profits will be treated as gain from the sale of the shareholder's Shares.

Taxation of Shareholders – Sale of Shares. A sale or redemption of Shares may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of Shares will be treated as long-term capital gain or loss if Shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of Shares will generally be treated as short-term capital gain or loss. Any loss realized upon a taxable disposition of Shares held for six months or less will be treated as long-term capital loss, rather than short-term capital loss, to the extent of any amounts treated as distributions to the shareholder of long-term capital gain with respect to such Shares (including any amounts credited to the shareholder as undistributed capital gains). All or a portion of any loss realized upon a taxable disposition of Shares may be disallowed if substantially identical Shares are acquired (through the reinvestment of dividends or otherwise) within a 61-day period beginning 30 days before and ending 30 days after the disposition. In such a case, the basis of the newly acquired Shares will be adjusted to reflect the disallowed loss.

The cost basis of Shares acquired by purchase will generally be based on the amount paid for Shares and then may be subsequently adjusted for other applicable transactions as required by the Code. The difference between the selling price and the cost basis of Shares generally determines the amount of the capital gain or loss realized on the sale or exchange of Shares. Contact the broker through whom you purchased your Shares to obtain information with respect to the available cost basis reporting methods and elections for your account.

An Authorized Participant who exchanges securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time and the sum of the exchanger's aggregate basis in the securities surrendered plus the amount of cash paid for such Creation Units. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate market value of any securities received plus the amount of any cash received for such Creation Units. The IRS, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot

currently be deducted, under the rules governing “wash sales” (for a person who does not mark-to-market its portfolio) or, on the basis that there has been no significant change in economic position.

Any capital gain or loss realized upon the creation of Creation Units will generally be treated as long-term capital gain or loss if the securities exchanged for such Creation Units have been held for more than one year. Any capital gain or loss realized upon the redemption of Creation Units will generally be treated as long-term capital gain or loss if Shares comprising the Creation Units have been held for more than one year. Otherwise, such capital gains or losses will generally be treated as short-term capital gains or losses. Any loss upon a redemption of Creation Units held for six months or less may be treated as long-term capital loss to the extent of any amounts treated as distributions to the applicable Authorized Participant of long-term capital gain with respect to the Creation Units (including any amounts credited to the Authorized Participant as undistributed capital gains).

The Trust, on behalf of the Fund, has the right to reject an order for Creation Units if the purchaser (or a group of purchasers) would, upon obtaining the Creation Units so ordered, own 80% or more of the outstanding Shares and if, pursuant to Section 351 of the Code, the Fund would have a basis in the deposit securities different from the market value of such securities on the date of deposit. The Trust also has the right to require the provision of information necessary to determine beneficial Share ownership for purposes of the 80% determination. If the Fund does issue Creation Units to a purchaser (or a group of purchasers) that would, upon obtaining the Creation Units so ordered, own 80% or more of the outstanding Shares, the purchaser (or a group of purchasers) will not recognize gain or loss upon the exchange of securities for Creation Units.

Persons purchasing or redeeming Creation Units should consult their own tax advisers with respect to the tax treatment of any creation or redemption transaction and whether the wash sales rule applies and when a loss may be deductible.

Backup Withholding. The Fund will be required in certain cases to withhold (as “backup withholding”) on amounts payable to any shareholder who (1) fails to provide a correct taxpayer identification number certified under penalty of perjury; (2) is subject to backup withholding by the IRS for failure to properly report all payments of interest or dividends; (3) fails to provide a certified statement that he or she is not subject to “backup withholding”; or (4) fails to provide a certified statement that he or she is a U.S. person (including a U.S. resident alien). The backup withholding rate is at a rate set under Section 3406 of the Code. Backup withholding is not an additional tax and any amounts withheld may be credited against the shareholder’s ultimate U.S. federal income tax liability. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax on shareholders who are neither citizens nor permanent residents of the U.S.

Non-U.S. Shareholders. Any non-U.S. investors in the Fund may be subject to U.S. withholding and estate tax and are encouraged to consult their tax advisors prior to investing in the Fund. Foreign shareholders (*i.e.*, nonresident alien individuals and foreign corporations, partnerships, trusts and estates) are generally subject to U.S. withholding tax at the rate of 30% (or a lower tax treaty rate) on distributions derived from taxable ordinary income. The Fund may, under certain circumstances, report all or a portion of a dividend as an “interest-related dividend” or a “short-term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Short-term capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax. Gains realized by foreign shareholders from the sale or other disposition of Shares generally are not subject to U.S. taxation, unless the recipient is an individual who is physically present in the U.S. for 183 days or more per year (based on a formula that factors in presence in the U.S. during the two preceding years as well). Foreign

shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from the Fund. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described in this paragraph. Different tax consequences may result if the foreign shareholder is engaged in a trade or business within the United States. In addition, the tax consequences to a foreign shareholder entitled to claim the benefits of a tax treaty may be different than those described above.

Under the Foreign Account Tax Compliance Act (“FATCA”), the Fund may be required to withhold a generally nonrefundable 30% tax on (i) distributions of investment company taxable income and (ii) distributions of net capital gain and the gross proceeds of a sale or redemption of Fund shares paid to (A) certain “foreign financial institutions” unless such foreign financial institution agrees to verify, monitor, and report to the IRS the identity of certain of its account holders, among other items (or unless such entity is otherwise deemed compliant under the terms of an intergovernmental agreement between the United States and the foreign financial institution’s country of residence), and (B) certain “non-financial foreign entities” unless such entity certifies to the Fund that it does not have any substantial U.S. owners or provides the name, address, and taxpayer identification number of each substantial U.S. owner, among other items. In December 2018, the IRS and Treasury Department released proposed Treasury Regulations that would eliminate FATCA withholding on Fund distributions of net capital gain and the gross proceeds from a sale or redemption of Fund shares. Although taxpayers are entitled to rely on these proposed Treasury Regulations until final Treasury Regulations are issued, these proposed Treasury Regulations have not been finalized, may not be finalized in their proposed form, and are potentially subject to change. This FATCA withholding tax could also affect the Fund’s return on its investments in foreign securities or affect a shareholder’s return if the shareholder holds its Fund shares through a foreign intermediary. You are urged to consult your tax adviser regarding the application of this FATCA withholding tax to your investment in the Fund and the potential certification, compliance, due diligence, reporting, and withholding obligations to which you may become subject in order to avoid this withholding tax.

For foreign shareholders to qualify for an exemption from backup withholding, described above, the foreign shareholder must comply with special certification and filing requirements. Foreign shareholders in the Fund should consult their tax advisors in this regard.

Tax-Exempt Shareholders. Certain tax-exempt shareholders, including qualified pension plans, individual retirement accounts, salary deferral arrangements, 401(k) plans, and other tax-exempt entities, generally are exempt from federal income taxation except with respect to their unrelated business taxable income (“UBTI”). Under the laws and regulations of the Code, tax-exempt entities are generally not permitted to offset losses from one unrelated trade or business against the income or gain of another unrelated trade or business. Certain net losses incurred prior to January 1, 2018 are permitted to offset gain and income created by an unrelated trade or business, if otherwise available. Under current law, the Fund generally serves to block UBTI from being realized by its tax-exempt shareholders with respect to their shares of Fund income. However, notwithstanding the foregoing, tax-exempt shareholders could realize UBTI by virtue of their investment in the Fund if, for example, (i) the Fund invests in residual interests of Real Estate Mortgage Investment Conduits (“REMICs”), (ii) the Fund invests in a REIT that is a taxable mortgage pool (“TMP”) or that has a subsidiary that is a TMP or that invests in the residual interest of a REMIC, or (iii) Shares constitute debt-financed property in the hands of the tax-exempt shareholders within the meaning of section 514(b) of the Code. Charitable remainder trusts are subject to special rules and should consult their tax advisers. The IRS has issued guidance with respect to these issues and prospective shareholders, especially charitable remainder trusts, are strongly encouraged to consult with their tax advisers regarding these issues.

Certain Potential Tax Reporting Requirements. Under U.S. Treasury regulations, if a shareholder recognizes a loss on disposition of Shares of \$2 million or more for an individual shareholder or \$10 million

or more for a corporate shareholder (or certain greater amounts over a combination of years), the shareholder must file with the IRS a disclosure statement on IRS Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Significant penalties may be imposed for the failure to comply with the reporting requirements. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Other Issues. In those states which have income tax laws, the tax treatment of the Fund and of Fund shareholders with respect to distributions by the Fund may differ from federal tax treatment.

Distributions

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Dividends, Distributions and Taxes."

General Policies. Dividends from net investment income, if any, are declared and paid at least annually by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Fund may make distributions on a more frequent basis to comply with the distribution requirements of the Code, in all events in a manner consistent with the provisions of the 1940 Act.

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Trust.

The Fund makes additional distributions to the extent necessary (i) to distribute the entire annual taxable income of the Fund, plus any net capital gains and (ii) to avoid imposition of the excise tax imposed by Section 4982 of the Code. Management of the Trust reserves the right to declare special dividends if, in its reasonable discretion, such action is necessary or advisable to preserve the Fund's eligibility for treatment as a RIC or to avoid imposition of income or excise taxes on undistributed income at the Fund level.

Dividend Reinvestment Service. The Trust will not make the DTC book-entry dividend reinvestment service available for use by Beneficial Owners for reinvestment of their cash proceeds, but certain individual broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Fund through DTC Participants for reinvestment of their dividend distributions. Investors should contact their brokers to ascertain the availability and description of these services. Beneficial Owners should be aware that each broker may require investors to adhere to specific procedures and timetables to participate in the dividend reinvestment service and investors should ascertain from their brokers such necessary details. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares issued by the Trust of the Fund at NAV per Share. Distributions reinvested in additional Shares will nevertheless be taxable to Beneficial Owners acquiring such additional Shares to the same extent as if such distributions had been received in cash.

Financial Statements

The audited financial statements, accompanying notes and report of independent registered public accounting firm appearing in the Fund's 2023 [Annual Report to Shareholders](#) are incorporated herein by reference.
